Horticulture

Dharmapuri district forms a major horticultural belt in the state. As the area is drought – prone it has become essential to switch over to cultivation of drought tolerant perennial fruit crops in this district. Mango is the main horticulture crop of this District. It has the highest area under the fruit crops . The district accounts for nearly one-third area under mango and nearly one-half of the mango yield in the state. Palacode is the main area where tomato is cultivated. Chilli is cultivated mainly at Pennagaram.

Fisheries

Dharmapuri being an inland district , fishing is restricted to inland only here. Main varieties of fish available are katla, rogu, mirgal, common and carp.

Mineral Resources

Dharmapuri district is endowed with sizeable reserves of granite. High quality black granite is available in Pennagaram, Harur and Palacode blocks. Quartz is available at Kendiganapalli Village of Pennagaram Taluk, A.Velampatti of Harur taluk and Pethathampatti of Pappireddipatti Taluk. Another High value mineral available here is Malibdinum, which is identified as a good conductor. It is available in Harur.

2.INDUSTRIAL SCENERIO OF DHARMAPURI DISTRICT

Dharmapuri district is known for its **mango, coconut oil, seeds, tamarind, pulse, tapiaco cultivation and cacoon prodution**. There is good scope for the industry that is willing to manufacture energy food for all age groups and rice mills and sago industries.

Traditional industries like **silk reeling, silk twisting, rice milling, manufacturing of readymade garments, power looms, sugarcane crushing and tamarind processing** in dharmapuri district. In fact **readymade garment cluster** at dharmapuri block point to the importance of these industries in the district economy.

- Nearly 19 granite polishing units are in the district. Under the **control of industries** department 10 co-operative societies are functioning in the district.
- The District has achieved self sufficiency in the milk production and the surplus milk can be **used to produce dairy products**
- The **mango pulp** is gaining popularity and in good demand in international level. There is a good scope for the units like **mango pickles, softdrinks, chocolates and chutneys**

The **coir based industries** are popular in this district and having good demand for coir products in india. **➤Biofertilizers is one of the natural fertilizers**, which is nitrogenous matter, which is immensely required for the growth of agricultural plant by virtue of their multifold superiority in soil replenishment with minerals essential nutrients of the plant tissue. **The future demand of biofertilizers**, is increasing at a tremendous pace, which necessitates the inclusion of the more unit to be established.

Vermiculture converts organic waste into resource. Vermiculture can be used to process the residual waste of agricultural products. In recent years, the demand for this is very good in the Districts like, Vellore, Thiruvannamalai and Tiruvallur.

There is good scope for coming up large scale industries in **granite cutting and polishing, blue metal jally, value added products from tamarind, tomato and tapioca starch, milk chilling and readymade garments** in the district.

The district has 4 engineering colleges, 8 arts and science colleges, 6 polytechnic colleges and one medical college.

The District provides enough scope for development and growth of industries engaged in textiles, garments, granites, matches, silk based products and wooden articles.

The district has **two co-operative sugarmills**, one is at palacode block and another one is at harur block. The Indian bank is the lead bank in the district.
