1. DISTRICT MAP

## **2. KANYAKUMARI DISTRICT AT A GLANCE**

### **General:**

The area comprising the present Kanyakumari district was a part of the erstwhile Travancore state. In 1835, when the state was divided into Northern and Southern divisions, this area formed part of Southern division and was placed in the charge of Dewan Peishkar, Kottayam. In July 1949, when the United States of Travancore and Cochin was inaugurated, the present Kanyakumari area continued to be a part of Trivandrum district of Kerala State. The people of Agasteeswarem, Thovalai, Kalkulam and Vilavancode Taluks, which formed the southern divisions of the former Trivandrum District, were predominantly Tamil speaking. They agitated for the merger of this area with Madras State. The States Reorganisation Commission also recommended this. Accordingly, the States Reorganisation Act, 1956 was passed and the Kanyakumari District was formed on 1st November 1956, with the four Taluks, viz., Agasteeswarem, Thovalai, Kalkulam and Vilavancode and merged with Tamil Nadu.

### **Location and Geographical Area:**

Kanyakumari is the southernmost district of Tamil Nadu. The district lies between 77° 15' and 77° 36' of the eastern longitudes and 8° 03' and 8° 35' of the northern Latitudes. Geographical area of the district is 1684 Sq.KM

### **Topography:**

The District is bound by Tirunelveli District on the North and the east. The South Eastern boundary is the Gulf of Mannar. On the South and the South West, the boundaries are the Indian Ocean and the Arabian Sea. On the West and North West it is bound by Kerala.

## ADMINISTRATIVE SETUP

The district administration is headed by the District Collector with his office at the district collectorate. The responsibilities of the District Collector include maintenance of law & order, coordinating various development and welfare activities in the district, etc. The Collector is assisted by the District Revenue Officer in matters of land revenue, land matters, public distribution system, etc. and by the Project Officer, District Rural Development Agency for various development schemes. General Manager, District Industries Centre assists the Collector, in the development and implementation of the schemes regarding Industrial development and Employment generation in the district.

## Forests

Forests are the heritage of the nation. These are assets and natural resources of the nation on which all forms of life depend and thrive. The forests in Kanyakumari district are verdant and virgin and said to be 75 million years old. Of the total district area of 1,67,130 hectares, forests occupy an area of 50486 hectares which comes to about 30.2% of the total district geographic area, which is next to Nilgiri district with (59 %) and Dharmapuri District (38 %) in the State. The district is having 52 % of its forests as dense forests.

## **Wildlife Sanctuary**

Kanyakumari Wildlife sanctuary with adjacent areas of Kalakkad Mundanthurai Tiger Reserve and Neyyar Wildlife Sanctuary of Kerala State constitutes the Southernmost tip of western ghats. The natural vegetation of this region represents biomes ranging from southern thorn forests, dry deciduous, moist deciduous, semi evergreen forests to ever green hill sholas with grassy downs. The tract is exceedingly rich in wildlife harbouring a variety of animals. The avifauna, the reptilian and amphibian fauna of this region are also rich and diverse.

In due recognition of the tremendous biological potential, Kanyakumari forest division was declared as Kanyakumari Wildlife Sanctuary during 2002 vide G.O.Ms.No.152 dated:16.07.2002 with an extent of 45777.57 ha. Later in 2007 Kani tribal settlements, approach road to settlements and area leased out to Arasu Rubber Corporation were excluded from the sanctuary and vide G.O. (Ms) No.128 (E&F) dated 20.11.2007 and an area of 40239.55 hectares was declared as Kanyakumari Wildlife Sanctuary.

### **Ecological significance:**

The ecological significance of the Kanyakumari Wildlife Sanctuary is of paramount importance. The forests serve as a catchment area for 10 reservoirs namely Pechiparai, Perunchani, Chithar-1, Chithar-II, Upper Kodayar, Lower Kodayar, Kuthiyar, Chinna Kuthiyar, Mukkadal and Poigai Anai. These reservoirs irrigate an area of about 50,000 ha and feed about 2,500 ponds and more than 500 Kms. lengths of channels. The well-being of these water systems is closely related to the prosperity of the farmers of the district as the economy of the district depends on agriculture. The rainwater due to precipitation in the reserve forest is collected by hundreds of the hill streams. These streams drain into Kodayar, Paraliyar, Pazhayar and Valliyar. Only if the reserve forests are protected well, the water resources can be maintained properly.

**Faunal significance:**

Kanyakumari Wildlife Sanctuary being a part of Western Ghats is rich in wildlife with atleast 30 types of mammals, about 100 species of birds including 14 species of migratory birds and many species of fishes, reptiles and amphibians. The presence of Tiger and Leopard though scanty lends credence to the richness of biodiversity of the tract.

**4.0 MINERAL RESOURCES**

Mineral resources playing a vital role in the development of a place. But Kanyakumari district mineral wealth is mostly depend on seashore. M/S Indian Rare Earths Ltd a central public sector undertaking unit has been set up in Manavalakurichi in the district, which processing illuminate. About 500 people are employed in the unit.
