Brief Industrial Profile of Nagapattinam District

1. General Characteristics of the District

Nagapattinam District was carved out of erstwhile Thanjavur District on October 18, 1991. Subsequently it was bifurcated in 1997 as Nagapattinam and Tiruvarur Districts. It is a very small district with a total geographical area of 2715.83 Sq. Kms. This constitutes just 2.09 % of the area of the State. Velankanni in this district is a famous tourism place.

Agriculture is the principal occupation in the district. Nearly 65.42% of the total work force is dependent upon agriculture. Nearly 12% are cultivators and the rest 54 % agricultural labourers. 55 % of the geographical area constitutes net sown area in the district. Paddy is the principal crop of the district. It accounted for nearly 66 % of the gross cropped area.

Nagapattinam has a coastal area spreading up to 165 Kms and marine fishing is practiced in almost 60 villages along the coastline. The district is deprived of any major industries but it is a flourishing center of cottage and handicrafts industry. Madras Refineries Limited is the major refinery unit located in the district. The district is a true example of religious harmony with all three major religions – Hinduism, Christianity and Islam flourishing with major religious centers developed in the district.
