FOREWORD

MSME-DI, Chennai, Tamil Nadu is one of the field outfit of Office of Development Commissioner, Ministry of Micro, Small and Medium Enterprises (DC-MSME) established in the year 1954 for implementing the various policies and programmes of Ministry of MSME towards entrepreneurship development in Micro, Small and Medium Enterprises across the State in liaison with State Govt. and other stake holders. This Institute covers 32 Districts in the State of Tamil Nadu and UT of Puducherry. with the following mandate

- **For Aspiring entrepreneurs :** identify, motivate, train, handhold and provide mentoring services.
- **For Existing entrepreneurs.** To provide techno economic consultancy and facilitation service
- **Skill Development:** To impart need based skill training through Skill Development Programmes (SDP)

One of the wide spectrum of value added services of the Institute is to prepare a brief district industrial profiles of each district for the benefit of aspiring and existing entrepreneurs in the State of Tamil Nadu and other States

This report contains brief details of the District, geographical information, statistical data relating to MSME's of the district, registration under Udyog Aadhaar Memorandum (UAM), potential areas for investment in service sector and manufacturing sector, identified industrial clusters, key contacts for whom to contact for what etc. . The report has been prepared based on our earlier first edition report duly updated from data/inputs collected by District nodal officers and from reports/publications of M/o. MSME, Govt. of India and Govt. of Tamil Nadu, MSME Deptt.

Economic Investigation Division of the Institute has taken special efforts in collection and compilation of the relevant data for preparing the document not only for the **THIRUVANNAMALAI District** but for all the Districts of Tamil Nadu. My sincere thanks to all the officers of the Institute for their cooperation in bringing out this brief industrial profile.

I am sure that that this document will be of much useful for the benefit of aspiring and existing entrepreneurs who are desirous of setting up of MSMEs in the State of Tamil Nadu in general and in the **District of THIRUVANNAMALAI** in particular.

BRIEF INDUSTRIAL PROFILE OF THIRUVANNAMALAI DISTRICT

2015-16

1. General Characteristic of the District.

Thiruvannamalai District is one of the Industrially backward districts in Tamil Nadu. This district is an outcome of the bifurcation of the North Argot District and came into existence on 30th September 1989. The district lies between 12.00 and 12 49' of North latitude and 78.38 to 79.45 East longitudes. The district is bounded on North and West by Vellore District and the Southwest by Dharmapuri District, on the south by Villupuram District and on the East by Kancheepuram District.

Agriculture is the main stay of the economy. The main agricultural produce are paddy, groundnut, banana and sugarcane. The total cropped area is 3.49 lakh Acres, constituting 5.4% of the State's total. The cropping intensity is 1.37. Cultivable area is 55.38% and per capita food grain production is estimated at 200 kg.

Dairy farming is an important source of subsidiary income to small and marginal farmers. Poultry is also an important occupation. The district is suitable for promotion of floriculture. Chengam, Arni, Polur, Thandarampet, Cheyyar blocks are potential blocks to promote horticulture and floriculture activities

1.1 Location and Geographical Area:

Thiruvannamalai district is bounded on the north and west side by Vellore District, on the south side by Villupuram District, on the southwest side by Dharmapuri District and on the east side by Kancheepuram District. Geographical area of Thiruvannamalai is 6191 Sq. Km. One sixth of the area of this district is covered by reserve forest and hills which is part and parcel of Eastern Ghats under Javvadhu Hills.

Hills are : Thiruvannamalai hills, Javvadhu hills and Kailasagiri hills

Latitude of Thiruvannamalai city : 11 deg 55' to 13 deg 15' N

Longitude of Thiruvannamalai city : 78 deg 20' to 79 deg 50' E

1.2 Topography:

Thiruvannamalai District came into existence on 30th September 1989 after the bifurcation of the erstwhile North Arcot District.

1.3 Telecommunication:

The healthy development of any economy depends on modern telecommunication facilities. The telecommunication services is being rendered to the public through Thiruvannamalai and Cheyyar Sub Divisions. All the Taluk Headquarters and important places are connected by telephone. There are 2 Head Post Offices, 73 sub post Offices and 391 Departmental post offices in the district.

1.4 Major Market Centers:

Thiruvannamalai, Arni, Cheyyar are the main marketing centers. More than 50% of the business activities are taking place in Thiruvannamalai. Arni specifically is known for silk weaving.

There are 19 regulated markets in the district and there are more than 30 weekly bazaar, mandis and shandy(sandai). The total arrival of agriculture produce to the regulated markets was 67260 MT in the year . The important arrivals were groundnut and paddy.

3. INDUSTRIAL SECENARIO OF THIRUVANNAMALAI DISTRICT

3.1 Industry at a Glance

The industrial units dotting the industrial map of Thiruvannamalai District are small and tiny industries. The industrial activities are in low profile activities such as flourmills, silk reeling and footloose industries. The concentration of such traditional units is centered around Thiruvannamalai, Polur and Arni. Considerable numbers of rice mill units are clustered in Cheyyar. Out of 6078 units concentrated in this district, 41 % are falling under the category of cottage and rural industries. Most of the units are based on local resources. Fruit, vegetable and floriculture are the major thrust sectors that are considered as sleeping giants in the district. Entire Chengam and Cheyyar regions have great potential for promoting agro-based industries. However, the existing potentiality has not been effectively exploited and can be attributed to poor entrepreneurship talent and initiative among the local youth.

41 % are falling under the category of cottage and rural industries. Most of the units are based on local resources. Fruit, vegetable and floriculture are the major thrust sectors that are considered as sleeping giants in the district. Entire Chengam and Cheyyar regions have great potential for promoting agro-based industries. However, the existing potentiality has not been effectively exploited and can be attributed to poor entrepreneurship talent and initiative among the local youth.

The availability of rare herbs and medicinal plants in Jawadhu Hills and in Melchengam offers promotion of medicinal extraction units in a big way. The concentration of neem trees in Thiruvannamalai and adjoining district of Villupuram offers promotion of neem based industries in this district. By and large, the district is suitable for promotion of agro-based industries.

S.no	Type of industrial units	No of units	Investment	Employment

2	MICRO	6015	22.70	13556
3	SMALL	268	80.40	2144
4	HANDICRAFTS	2331	13.90	3459
5	COTTAGE IDUSTRIES	2373	9.54	3145

Arani has been one of the historical silk and cotton weaving centres in India. It is famous for its light weight and affordable handloom silks. Agriculture, bee keeping, poultry are the other major economic activities in the town. The town is also well known for its Paddy and Rice trade.

The total workforce of the district is 8.824 lakhs accounting for 43% of the total population of the district, of which agriculture and marginal labours alone constitute 20% of the total population. 84.49% of the labours depend directly on agriculture. Incidentally only 8.59% of the working population is involved directly in the industrial sector. There are nearly 3.14 lakhs farmers, covering 1.071 lakh ha, holding less than 1 Acre of land in this district/ The backwardness of the district is apparent from the size of the land holding. A similar situation is also reflected in the occupational pattern of the working population.

All the blocks in the district have been declared as either industrially backward EXCEPT Thiruvannamali Block.. True to the pattern of a low level industrialization, traditional and footloose industries constitute a major share in generation of investment, employment, output and a greater part of the income is still being generated from the primary sector. Presence of food and food based industries, servicing and repairing industries, wood and wooden products manufacturing industries and metal based industries in this district. The relative position of these industries has not showed any drastic changes in the late 90s. The food and food based industries continue in the premier position. However, wood and wooden based industries and hosiery and garment units leaped into the third position.

Dairy farming is an important source of subsidiary income to small and marginal farmers. Poultry is also an important occupation. The district is suitable for promotion of floriculture. Chengam, Arni, Polur, Thandarampet, Cheyyar blocks are potential blocks to promote horticulture and floriculture activities
