FOREWORD

The Micro, Small and Medium Enterprises (MSME) sector has been recognized as an engine of growth all over the world. The major advantage of this sector in India is its employment potential at low capital cost. The labour employment in MSME sector is much higher than that of the large enterprises. The MSMEs constitute over 90% of total enterprises in most of the countries with the highest rate of employment growth and a major share of industrial production and exports. In India, MSMEs play a pivotal role in the overall growth of economy. With its agility and dynamism, the sector has shown admirable innovativeness and adaptability to survive in the recent economic recession.

Haryana has taken lead in terms of planned industrial and urban growth compared to neighbouring States, which has resulted in development of new industrial estates including product specific clusters close to the National Capital. The New Industrial Policy launched in August, 2015 of Haryana will boost the growth of MSMEs in the State and open new avenues for cluster development as well. It is hoped that the entrepreneurs will find this document useful for taking investment decisions, besides proving immensely helpful information to various agencies engaged in the promotion and development of MSMEs in the state.

I appreciate the efforts put in by Shri M K Verma, Assistant Director (MT) in preparation of this document. I am also thankful to various government departments, industrial associations and other agencies for giving information and data for compiling this document. Some data has also been obtained from the websites of concerned departments.

Brief Industrial Profile of Gurgaon District

1. General Characteristics of the District:

Gurgaon district is situated in NCR of Delhi, the capital of India. It is just 10 kms away from Indira Gandhi International Airport, Delhi. The district derived its name from the name of Guru Dronacharya; the village was given as ***gurudakshina*** to him by his students; the Pandavas and hence it came to be known as ***Guru-gram***, which in course of time got distorted to Gurgaon. Thus the district has been existence since the times of Mahabharata. The district is surrounded by Delhi & Rajasthan.

It is said that Yudhishtar, the eldest brother among the Pandavas, gave this village to his guru, Dronacharya, whose tank still exists on the west side of the Railway Road. Actual village "GURGAON" is about 1.5 km. away from Gurgaon town, where the temple of SHEETLA MATA, attracts devotees in large numbers on every Monday and Tuesday.

During Akbar's reign, the district fell within the subas of Delhi and Agra, and comprised, wholly or partly, the sikars of Delhi, Rewari, Suhar Pahari and Tijara. With the decay of the Mughal Empire, it remained in a disturbed state as a consequence of fighting between the neighboring chiefs till 1803 AD when most of it came under the British rule through the Treaty of Surji Arjungaon with Sindhia. The town was first occupied by the cavalry unit posted to watch the army of Begum Samru of Sirdhana, whose principal cantonment was in the village Jharsa, 1.5 km. to the south-east of the town.

The civil offices were removed from Bharawas (tehsil Rewari) in 1821 AD, when the British frontier advanced through the acquisition of the Ajmer territory.

The district was divided into parganas by Britishes, various parganas were given to petty chiefs and granted as jagirs in lieu of military services rendered by them.

These jagirs were gradually resumed and came under the direct management of the British; the last of the important changes took place in 1836 AD. Thereafter, the district remained unchanged until the 1857 uprising. In 1858 AD it was transferred from the North Western Provinces to Punjab. In 1861, the district was rearranged into five tehsils Gurgaon, F.P.Jhirka, Nuh, Palwal & Rewari.

In the composition of the District since the beginning of the 20th century various changes have occurred.

1.1 Location & Geographical Area:

The present Gurgaon district comprising nine blocks Tauru, Nuh, Pataudi, Nagina, Punhana, F.P.Jhirka, Sohna, Gurgaon & Farrukhnagar was created on 15 August, 1979. It is the southern-most district of Haryana. The district lies between 27 degree 39' and 28 degree 32' 25" latitude, and 76 degree 39' 30" and 77 degree 20' 45" longitude. On its north, it is bounded by the district of Rohtak and the Union Territory of Delhi. Faridabad district lies to its east. On its south, the distt. shares boundaries with the states of Uttar Pradesh and Rajasthan. To its west lies the district of Rewari and the State of Rajasthan. Gurgaon town is about 32 km away from New Delhi, the National Capital of India.

1.2 Topography

Location guide for Gurgaon provides some basic essentials for the more adventurous visitor. A simple location map is provided but also a detailed topography map that shows the location of the nearest places where you can surf, ski or mountains climb (if they are close by). Of course some of these will be at long distances from Gurgaon and those far flung spots are provided on the 'nearest' tables. If you are traveling to other cities or towns near Gurgaon you will also find weather forecasts for those locations below.

Gurgaon Location Map Detail:

National Parks located in Gurgaon District

Sultanpur National Park, located at about 50 Km from Delhi and 15 Km from Gurgaon on Gurgaon Farukhnagar road is a bird paradise particularly in the winter months both or local as well as migratory aves. Its sanctuary potential was first recognized by the world famous ornithologist, Mr. Peter Jackson, Keeping in view its importance and potential, the area covering 359 acres was declared a Bird Sanctuary in 1971 and was upgraded to the status of National Park in 1991 by Haryana Government. The Education & Interpretation Centre has over 70 attractive colour photographs and transparencies' of different species of birds. The photographs are accompanied with informative write-ups about birds which are of interest to bird lovers. The Department has also established a Centre in the memory of Dr. Salim Ali, the

internationally acclaimed ornithologist of India which contains his bust, photographs, write-ups and certain of his personal effects. The National Park has an area of 359 acres, out of which about 180 acres is poundage area and the rest provides habitat for terrestrial birds. Heronries look very beautiful with diverse groups of birds. Of the recorded 250 bird species, 150 are residents or local migratory, while others come from faraway northern regions like Siberia, Europe and Afghanistan. The common resident species are Little Egret, Painted Stork, White ibis, little brown dove, Indian crested lark, Myna, Red vented bulbul, Magpie robin, Weaver bird etc. Every year about 90 species of migratory birds arrive here in search of feeding grounds and to pass winter. In winter, the sanctuary provides a picturesque panorama of migratory birds such as Rosy pelican, spotted sand piper, starling, Blue throat etc. In summer, 11 species of birds such as Koel and Cuckoos can be recognized by their melodious songs. For comfortable stay of visitors at park, tourism Development Corporation has established a tourist complex with salubrious climes. Bird watching is facilitated by four watch towers at vantage locations and a nature trail. For study/ identification of birds, a museum containing photographs and a library equipped with sufficient good books on birds and wildlife are available. Binoculars are provided to interested visitors.

1.5 Administrative set up.

The district is under the overall charge of the Deputy Commissioner with Addl. Dy. Commissioner looking after the Integrated Rural Development Programme. Each Tehsil is under the control of Sub-Divisional Officer (Civil). The office of the Deputy Commissioner, Karnal runs the District Administration, maintenance of law and order and redresses the grievances of the public and implements all the policy decisions of the Govt.
