Foreword

The Potentiality Survey of any area is a document of the opportunities available in the area with information on the present natural, financial, technical resources of that area. The Industrial Potential Survey of District Pithoragarh of Uttarakhand State has been prepared with a view to give detailed information on the Geography, seasonal environmental conditions, its important places, administrative set up with their contact details, agricultural and forest produces etc. It also has information on present industrial scenario like no. of industrial Estates/areas, types and no. of MSMEs and large industries, no. of registered MSMEs, exportable products, existing manufacturing and service enterprises along with the scope for establishing new manufacturing and service enterprises in the district. A brief detail of central and state agencies which are existing in the District/State for assistance in setting up of MSMEs, is also provided in this report.

This Potentiality survey of District Pithoragarh will be of utmost help for the new as well as existing entrepreneurs in the District and State of Uttarakhand for exploring opportunities and setting up of enterprises in the District. Entrepreneurs of the other States of the India will also be benefited with the information covered in this survey report.

A lot of thanks to the officers of various agencies, particularly the officers of District Industries Centre (DIC), Pithoragarh for providing authentic information for this survey report. The help and support of colleagues and officers in MSME-DI, Haldwani in generation of this report is need to be mentioned. Also, overall guidance of Director, MSME-DI, Haldwani in the preparation of this Industrial Potential Survey report is highly appreciated.

(D.S. Martolia)

Asst. Director

Brief Industrial Profile of Pithoragarh District

1. General Characteristics of the District

Pellentesque Mother Nature has been rather generous in the distribution of a very rich hydrographic features of irresistible beauty to district Pithoragarh traditionally held to be the chosen abode of the divine deities, cascading waterfalls, the splendid glaciers, natural reservoirs enclosed by fantastic variety of vegetation, serene lakes and noisy flamboyant rivers are all a part of the rugged charm that the district possesses to such a stupendous degree.

Once the bastion of the Chand rulers, Pithoragarh town is littered with temples and forts belonging to that era. The town is set in a valley popularly known as and lies in the centre of four hills Chandak, Dhvaj, Kumdar and Thal Kedar, and stretches in the southern flank to Jhulaghat demarcated by the Kali river adjoining the barren peaks of Nepal Hills. It is snuggled in the folds of four kots Bhatkot, Dungkot, Udaikot and Unchakot.

Pithoragarh District having its entire northern and eastern boundaries being international, assumes a great strategic significance and, obviously, is a politically sensitive district along the northern frontier of India. Being the last district adjoining Tibet, it has tremendous strategic importance as the passes of Lipulekh, Kungribingri, Lampia Dhura, Lawe Dhura, Belcha and Keo, open out to Tibet. The breath taking beauty of Pithoragarh - Himalayas, wide expanses of grassy meadow, perennial streams roaring down the zig-zag course, a stupendous variety of flora and fauna, above all, pure nature yet unsullied, seem to beckon the beholder into their folds, into a charmed world of virgin beauty.

It was in the wake of the Chinese aggression that on the 24th Feb. 1960, a sizeable section of Almora district was carved into Pithoragarh district containing extreme border areas with its head quarters in Pithoragarh town. On 15th September 1997, the Champawat Tehsil, hitherto under Pithoragarh, was carved into Champawat district.

The details of the land utilization are given as below:

S.N.	Particulars	Area (in lakhs hac)
1.	Land Utilization area	4.61
2.	Land under Forest	2.15
3.	Permanent pasture	0.54
4.	Dry Land Area	0.53
5.	Fallow Land	0.128
6.	Total Cropped Area	0.793
7.	Net Area Sown	0.50
8.	Irrigated Area	0.05
9.	Area Sown more than once	0.35
10.	Kharif Area	0.468
11.	Rabi Area	0.380

There are numerous gay spots to which the prospective tourist may plan excursions like Chandak, Thal Kedar, Gangolihat (77 kms) famous for its kali temple, Patal Bhuvneshwar (99 kms) , Berinag (Tea Garden of Chaukori - 11 km away from Berinag), Didihat, Munsyari (base camp for traks to Milam, Ralam and Namik Glacier), Dharchula (base camp for Kailas Mansarover Yatra, Adi Kailash Yatra, Narayan Swami Ashram) and Jauljibi.

1.1 Location & Geographical Area

The Pithoragarh town is located at a height of 1645 meters above sea level. The district lies between 29.4° to 30.3° North latitude and 80° to 81° East longitude along the eastern and southern part of the central Himalayas with Indo-Tibbetan watershed divide in the north and the Kali river forming a continuous border with Nepal in the east. The Pithoragarh district is surrounded by the national boundaries of Almora, Champawat, Bageshwar and Chamoli districts and extends over an area of 7,217.7 sq. Kms.

1.2 Topography

The Pithoragarh town is located at a height of 1645 meters above sea level. The district lies between 29.4° to 30.3° North latitude and 80° to 81° East longitude along the eastern and southern part of the central Himalayas with Indo-Tibbetan watershed divide in the north and the Kali river.

The entire district can be grouped into the following climatic zones:

Climatic Zone	Elevation (in meters)
1. Cool Temperature	
a. Moist	600 - 1200
b. Dry	1000 - 2500
c. Sub Tropical Valley	600 - 1200
2. Cold Temperature	
a. Cold Temperature in higher location (snow bound) (5 - 6 month)	3000 - 3500
b. Cold Temperature (lower valley)	2000 - 3000
3. Alpine Zone	
Perpetually snow covered area	3500 - above

4. Dry Climate	
Trans Himalayan Alpine Valley of rain shadow location	2500 - 3500

Seasons: The entire district exhibits four broad seasons in the year

1. Winter or Cold weather (mid Dec. - mid March)
2. Summer or hot weather (mid March - mid June)
3. Season of general rains (South - West monsoon season)
4. Season of retreating monsoon (mid September to mid November)

Temperature: During the coldest month of January, tropical ridges and high location along the lesser Himalaya record an average monthly temperature between 5.5°C and 8°C. By the March the temperature begins to rise progressively till early June which is the hottest month everywhere. Dharchula and Jhulaghat record an average temperature between 30 - 45°C.

1.3 Agriculture:

Department of Agriculture was set up in 1875. Initially, the Department of Agriculture was limited only to compiling statistics and to establish model form. In 1880, it was attached to the Department of Land Records. After implementation of Govt. of India Act 1919 and as a result in order to establish State Agriculture Policy, the Agriculture Department came into existence on 01.12.1919. After Uttarakhand State came into existence in the year 2000, Uttarakhand Govt. had notified the restructuring of the Agriculture Department on 02.08.2003.

Major Crops in Uttarkashi district are Rice, Wheat, Barley, Maize, Mandua etc. Statistical details are available in District at a Glance (Sl. No. 3.1)

1.4 Horticulture:

Uttarakhand is known for its horticultural crops, which include fruits, vegetables, off-season vegetables, floricultural crops, medicinal and aromatic plants. Horticulture is one of critical sectors in the economy of the hill state of Uttarakhand. It provides much needed opportunity for diversification and increased employment in the state where the scope of high rate of growth in conventional agriculture is rather limited due to peculiar topography and

majority of scattered and marginal holdings. Uttarakhand shared 2.81 per cent of all India area under fruits.

1.5 Availability of Minerals

Availability of Mineral

S.NO.	NAME OF MINERAL	Availability
MAJOR MINERAL		
1.	Limestone	950 Million Metric Ton
2.	Dolomite	200 Million Metric Ton
3.	Magnetite	180 Million Metric Ton
4.	Soap stone	160 Million Metric Ton

i) Forest cover	2010-11	Hectare	205239
-----------------	---------	---------	--------

1.7 Administrative set up

The district has been divided into six tehsils viz. Munsyari, Dharchula, Didihat, Gangolihat, Berinag, Pithoragarh and two sub-tehsils Dewalthal, Kanalichhina having its head quarter at Pithoragarh and the Commissionery head quarter at Nainital. There are 8 Development Blocks, 3 Towns, 64 Nyaya Panchayats and 644 Gram Panchayats in the district. There are 1672 villages out of which 1579 are inhabited. As per 2001 census, total population of the district is 4,62,289 out of which 2,27,615 are males and 2,34,674 females. Also the Total literacy rate of the district at present is 75.95.

3.4 Large Scale Industries / Public Sector undertakings

Large Scale Industries are not present in this district

3.5 Major Exportable Item

Exportable units are not present in this district.

3.6 Growth Trend

- Nil

3.7 Vendorisation / Ancillarisation of the Industry

Large industries are not present in the district hence vendors are not required here.

3.8. Medium Scale Enterprises

Nil

3.9 Service Enterprises (Up to 31.03.2016)

S.No.	Year	NUMBER OF UNITS	INVESTMENT (Rs. In LAKH.)	EMPLOYMENT GENERATED
1.	2010-2011	31	445.00	143
2.	2011-2012	18	277.69	58
3.	2012-2013	06	175.85	19
4.	2013-2014	15	296.00	52
5.	2014-2015	31	264.75	88
6.	2015-2016 (Including UAM)	31	174.10	71

3.10 Potentials areas for service industry

1. Tourism related service sector have scope in this District.
2. Local need based enterprises etc.

3.11 Potential for new MSMEs

Pithoragarh is a hilly district of Uttarakhand. Large industries are not present here. This is not connected by rail link. Transport facilities are not appropriate. This district has only one mini industrial area having land bank of 1.0 acre only. Presently all plots have been allotted.

Pithoragarh has potential for food based enterprises. Malta is local fruit available in huge quantity. Horticulture and floriculture based farming have potential in this district. Tourism based industries also have scope in this district. Mining/mineral based industries have potential in Pithoragarh.

4. Existing Clusters of Micro & Small Enterprise

Industry based cluster is not present in Pithoragarh.

5. General issue raised by Industries Association

1. Lack of trained Manpower.
2. Availability of Power Supply is not proper & sufficient.
3. Pithoragarh is not connected by Rail hence transport cost is high.
4. Raw material cost is very high.
5. Financial assistance should be provided on low interest rates.
6. Industrial plots should be provided on subsidized rates.
7. Taxation & its process should be simplified.

6. Central/State Agencies assisting in setting up of MSMEs:
