Brief Industrial Profile of Bastar District

1. General Characteristics of the District

Bastar District is a district of the state of Chhattisgarh in central India. Jagdalpur is the district headquarter of this district. Bastar was one of the 16 Madhya Pradesh districts that formed the new state of Chhattisgarh and in 1999, the district was divided into the present-day districts of Bastar, Dantewada, and Kanker.

1.1 Location & Geographical Area.

The district has an area of 8755.79 km². Bastar District is bounded on the northwest by Rajnandgaon District, on the north by Kondagaon District, on the east by Nabarangpur and Koraput districts of Orissa state, on the south and southwest by Dantewada District, and on the west by Gadchiroli District of Maharashtra state.

1.2 Topography

Bastar district has all the characteristics of Bastar Plateau. The district is currently a part of the Red Corridor. Rice is grown predominantly during kharif season as rain fed crop having 2.39 lakh hectare area but the productivity of this crop is very low 08.53 qt/ha in Bastar region of Chhattisgarh. Exceptionally fortunate in its water resources, the region has good rainfall and rapid run off due to the undulating terrain. There is potential for rainwater harvesting.

1.3 Availability of Minerals.

Lime stone and marble stone are the minerals found in present Bastar district. However, minor minerals like stone, murram etc. are also found.

PRODUCTION OF MINERAL 2010-11

| S.NO. | NAME OF MINERAL | PRODUCTION in tones 2010-2011 |
|---------------|--------------------------|----------------------------------|
| MAJOR MINERAL | | |
| 1. | Lime Stone, Marble Stone | 44187 |
| MINOR | | |
| 1. | Stone, Clay, Murram | 621851 |

1.4 FOREST

Forests play an important role in the lives of the people of the district, providing food security and livelihood through the collection of minor forest produce, and employment (as casual labour) in the Forest Department. The forests provide for people's consumption needs — fuel and firewood, medicines, food and drink, implements and housing materials.

1.5 Administrative set up.

The district is divided into 12 tehsils, 12 panchayat samitis, 296 patwari circles and 580 Gram Panchayats.
