Brief Industrial Profile of Bhandara District

1. General Characteristics of the District: For the purpose of administrative conveyance, the district is divided into seven Tahsils and seven Panchayat Samities. According to the 2001 Census, there was 541 Gram Panchayat for the purpose of Rural Development. The main crop grown in the district is paddy.

Bhandara district stretches over an area of 3716.65 Sq. Km. Area under Urban sector is 49.34 Sq. Km. while the area under the rural sector is 3667.31 Sq. Km. In the terms of area, Bhandara district constitutes 1.21% of the total area of the Maharashtra State. Total population of the district according to 2001 census was 1136146 out of which 573445 were males and 562701 were females. Of the total population, 85% is residing in rural area and 15% is residing in urban area. The density of the population according to the 2001 census was 306 persons/Sq. Km. which is much below the density of Maharashtra State.

1.1 Location & Geographical Area:

Bhandara district lies between 20.39 to 21.38 degree North Latitude and 79.27 to 80.42 East longitudes. The Wainganga and Bawanthadi rivers bound the major part of the northern territory of the district. Bhandara district is situated in Wainganga basin. It has a common boarder on North with Seoni and Balaghat Districts of Madhya Pradesh & is surrounded by Chandrapur district on the south, Gondia district on the East and Nagpur district on the West. The total area of the district is 3716.65 Sq. Kms. which is about 1.21% of the total area of Maharashtra State.

1.2 Topography:

Bhandara is the rice bowl of Maharashtra state. The Chinnor, Dubhra, Kalikammod, these scented rice varieties from Bhandara district are famous in the State. Bhandara district is known as district of lakes. District is rich in forest, beautiful lakes, natural flora & fauna have enhanced natural beauty and grandeur of the dist. Bhandara district is well-known for the forest resources. Out of total geographical area of the district, 1343.77 Sq.KM is under forest. Iron is the chief mineral product. The district headquarter can be approached by the National Highway No. 6 from Nagpur to the east and also by the railway. The entire district of Bhandara falls within the drainage of the Wainganga River. The soils of the district are varied, arising out of the tropical sub-humid weathering of crystalline metamorphic and igneous rocks. They are essentially residual, though along the southern extremes of the Wainganga valley, downstream of Pauni, alluvial soils prenominate. The major catch from the riverine resources comprises local fishes, viz., Tambir (Labeo fimbriatus), wadis ( Puntius tor), Kolshi (Pauntius Kolus), Shivda (Wallago attu), Wagur (Clarius magur), Bodth ( Bagarius bagarius), and Tamboo (Anguilla bengalenisis). Prawn fishery, mainly of Macrobrachium malcolmsonii, constitutes an important fishery in the district.
1.3 Availability of Minerals:

Bhandara District has been endowed with various valuable mineral resources. Manganese Ore is found in large quantity in the district. The other important minerals found in the district are Iron ore, Chromite, Silliminite, Corundum, Phyrophyllite, Kaynite and Quartz. Besides these, the other minor minerals are also found in the District.

1) Manganese Ore:

Manganese Ore plays a vital role in alloy steel formation and in the manufacture of dry batteries and paints. It is estimated that about 20 million tones of Manganese Ore reported to be available in the district. Important mining centres are Chikhala, Dongri (Bujurz), Balapur (Hamesha), Sitaswangi and Indrabuchi in Tumsar Tahsil where high grade of Manganese Ore is found. Low grade Manganese Ore occurrence is located at Mangrali, Mandekar, Lendezari, Alesur, Asolpani and Korli.

2) Chromite:

Chromite deposits are located at Pauni Tahsil. Chromite has important use in refractory, metallurgical and chemical industries. Geological data indicated that there is 0.48 million tones of Chromite available in the District.

3) Corundum:

Corundum is mainly used for manufacturing of various types of abrasives such as grinding wheels and coated abrasive (Emerge Paper & Cloth). It also finds their use for the manufacture of high temperature refractory materials wiredrawing dies, thread guides and gauge blocks. Corundum is the second hardest material next only to diamond. It also possesses high melting point (1950 deg. C). The deposits of corundum are located in Pohara and Dahegaon in Sakoli Tahsil.

4) Kyanite & Silliminite:

These alumina silicate materials are found in more than 20 localities in the district. Out of known deposits, the workable mines exist in Pohara, Dahegaon, Paradi and Nawargaon. The important mines at Dahegaon and Pohara run by M/s. Maharashtra State Mining Corporation. Kaynite and Silliminite are useful for the manufacturing of super duty alumini silicate refractory bricks and block, which find their uses in various Industrial furnaces as lining materials.

5) Phyrophyllite:

Geological data indicate that there is 0.28 million tones of Phyrophyllite available in the District. Phyrophyllite is a hydrous aluminum silicate, which finds its use in the manufacture of paper, ceramics, refractories and insecticide formulations primarily as fillers. In Bhandara District, Phyrophyllite mines are located at Pohara and Kanheri in Sakoli Tahsil. Deposits of other Mineral like Copper Ore, Tungsten, and Vanadium are also available in the Bhandara district.

### 1.4 FOREST

During the year 2010-11, an estimated 1343.77 Sq KM of area was under forest which constituted 36.15% of the total area. Forest resources contribute significantly to the economy of the district. Most of forest area is located in the Bhandara, Tumsar, Tiroda and Sakoli Tahsils. Teakwood is available from these forests in sizeable quantity. The other wood is sal, bija, tinsa, shisam, haldi, mohawa, rohan, khair and behada. The other resources are Tendu Patta, Moha Flower, Lac, Gum, Bamboo, Grass etc.
1.5 Administrative set up.

For the purpose of administrative conveyance, the district is divided into seven Tahsils and Panchayat Samities. According to the 2001 Census, there are 541 Gram Panchayats for the purpose of Rural Development. The Tahsils are given in the Table.

### 3.5 Major Exportable Item

Steel Alloys, Manganese di oxide, Aluminum Powder, Rice.

### 3.6 Growth Trend:

At present the steel alloys and manganese powder industries are exporting their product but basic resource based Rice Milling Industries are expanding and have modernized their plants as per export requirements and export policies.

### 3.7 Vendorisation / Ancillarisation of the Industry

Rice milling ancillarization is observed in and around Nagpur for sorting & polishing.
3.8. Medium Scale Enterprises

3.8.1 List of the units in BHANDARA & Near By Area

1. Seshsayi Foods P. Ltd., Plot No. C/10/3, MIDC Gadegaon, Bhandara
   Products-- Pasta, Vermicelli  Investment—12.92 Crores  Empl. 36

2. Unideritend Ltd., Maneknagar, Tumsar, Tq. Tumsar, Distt. Bhandara
   Products—Ferro & Silica Manganese  Invst.—7.27 Crores,  Empl. 216

3.8.2 Major Exportable Item

Vermicelli, Ferro & Silica Manganese

3.9 Service Enterprises

286 Units, Employment - 737, Investment Rs. 171.20 Lakhs and Production Capacity. Rs. 319.00 Lakhs.

3.9.2 Potentials areas for service industry

Existing units are of repairing shops of electronic appliances, automobiles and beauty parlours. In view of the existing scenario, activities like Goods Transport, Repairing of Rice Mill Machinery & Repairing of Heavy & Medium Goods Transport Vehicles has potential in the district.

3.10 Potential for new MSMEs

In view of the expanding irrigation facilities and changing trend of cultivation, Jaggery, Rice Byproducts, Milk & Milk Products, Preserved Vegetables has good potential in the district.

4. Existing Clusters of Micro & Small Enterprise.

No Clusters are identified.

5. General issues raised by industry association during the course of meeting.

   (1) Capital Incentives for MSME

   (2) Expansion of Existing Industrial Area

   (3) Load shedding in Rural Area
### 6. STEPS TO SET UP MSMEs

Following are the brief description of different agencies for rendering assistance to the entrepreneurs.
