5. General issues raised by industry association during the course of meeting

Chikkaballapura District functioning from August-2007, the Industrial Association in the District is newly establishing.

Suggestion for improvement of industrial scenario in the district.

- ❖ Though there are clear cut guidelines from brass of Public Sector Banks and there are also clear cut instructions from Reserve Bank of India, Branch Managers are reluctant to sanction the Loan. **The Banks are not coming forward to sanction loan to small, medium and micro entrepreneurs.**
- ❖
- ❖ Entrepreneurial competence and personality are the key factors that are necessary to succeed in entrepreneurial ventures. Keeping in view the challenging entrepreneurial opportunities at present and future, it is of paramount importance to promote management skills of the budding entrepreneurs to succeed in their Endeavour.
- ❖ To accelerate the industrial growth, the growth centers have to be identified in the District in order to trickle down the fruits of the industrial growth.

- ❖ In order to make available the easy credit flow to the industries, soft loan scheme will have to be introduced and also credit guarantee trust fund scheme will have to be accepted and implemented by all the Banks in the District.
- ❖ Flow of Working Capital to Industries is not satisfactory. Micro and Small Scale Industries need to be provided with hurdle free and adequate working capital assistance from Banks and Financial Institutions. Present procedure of working capital sanctioned by Banks is based on the past performance of the units and also depending upon the collateral security available. Financial Institutions and Banks may come out with liberalized working capital sanction scheme at least for the Backward District like Chikkaballapur.

Food processing:

- There is huge scope for food processing industry.
- The urban market in Bangalore provides ample opportunity for food processing sector in the district.
