Brief Industrial Profile of Etawah District

1. General Characteristics of the District

Etawah district is the southwestern portion of Uttar Pradesh. Etawah town is the district headquarters. Etawah district is a part of Kanpur Division. The district covers an area of 2311 KM². It has a population of 1,579,160 (2011 Census).

The early history of the region now within the district of Etawah is quite interesting. It once formed part of the ancient country of Panchala which is said to have extended from the foot of the Himalayas in the north to the river Chambal in south, although it is doubtful if it extended south of Yamuna, the portion being included in Ajad Janpad. That the region was inhabited in primitive times is testified by the finding of pre-historical bronze weapons scattered all over the Ganga- Yamuna doab. This region must have been civilized long ago, probably during Bronze Age or even sometime before. It is a simple barbed lanceolate with bronze blade, about thirteen inches in length without any extra hooks or barbs. The weapon is known as Norham harpoon. It is famous Now a Days. The Chief Minister of Uttar Pradesh Shri Akhilesh Yadav belongs to this district.

1.1 Location & Geographical Area.

Etawah is located at 26°21'N - 78°45'E & 27° 01'N - 79°45'E. It has an average elevation of 197 meters (456 feet). The district of Etawah lies in the southwestern portion of Uttar Pradesh 26° 47" north latitude and 72° 20" east longitude and forms a part of the Kanpur Division. In shape it is a parallelogram with a length from north to south 70 km. and East to west 66 km. and 24 km. on the other side. It is bounded on the north by the districts of Farrukhabad and Mainpuri, while the small extent of western border adjoins Tehsil Bah of the Agra district. The eastern frontier marches with the district of Auraiya, and along the south lie Jalaun. District Gwalior which has very short distance to the Chambal and Yamuna rivers.

1.2 Topography

Etawah lies entirely in the Gangetic plain, but its physical features vary considerably and are determined by the rivers which cross it. It is divisible into four portions of district natural characteristics.

The first of these consists of the country lying north-east of the Sengur river, which runs across it from west to east almost parallel to the Yamuna; it includes the northern portions of tehsils Etawah and Bharthana. The second tract lies south of the Senger and extends as far as the high lands immediately overlooking the Yamuna. It

comprises a slightly undulating stretch of country covering portions of Etawah and Bharthana and Auraiya District. The tract includes the parts of some tehsils that adjoins the river Yamuna.

1.3 Availability of Minerals.

Etawah district has almost nil minerals availability because of no mines. There are only sand which are extracted from river Yamuna and Chambal for the purpose of the building material.
