# Brief Industrial Profile of Wokha District.

## 1. General Characteristics of the District.

Wokha is one of the eleven District of Nagaland. It was bifurcated from Mokokchung District in the year 1973. Then the District Administrative HQ. was set up a Wokha Town in the month of December 1973 under the control of Deputy Commissioner. The Deputy Commissioner's Office looks after the administration of the District, maintain Law and Order, work for general welfare and see to the proper and smooth functioning of the various Department in the District.

## HISTORY

Since its inception, Shri. Binod Kumar, IAS was the first Sub - Divisional Officer - Cum - Deputy Commissioner in the year 21/12/1973. The present Deputy Commissioner is Shri. Rovelatuoe MOR, NCS. There has been 26 Deputy Commissioners in the District till date.

## Below from left side are the D.C, ADC, SDO (C) SADAR & SDO (C) WOKHA

[Shri. Vyas R \(IAS\) SDO Civil, Wokha HQ.](#)

## DISTRICT PLANNING & DEVELOPMENT BOARD

There are various Department in the District who have got their own organizational set up and are being controlled by their respective department, however, for better Co - Ordination of the work, there is a **DISTRICT PLANNING & DEVELOPMENT BOARD** in which all the District head of Office are members and the Deputy Commissioner as Vice - Chairman. The D.P.D.B into the needs of different Departments and is effective for Co - Ordination of policies and planning and provide a board framework for function.

## **ORGANISATION**

The Office of the Deputy Commissioner Consists of a Deputy Commissioner, under him one Addl. Deputy Commissioner, 2 (Two) Sub - Divisional Officer's Viz, SDO Civil Wokha Sadar & SDO Civil Wokha HQ. and 4 (four) Extra Assistant Commissioners.

There is an Office Superintendent who holds charge of all branches and Office establishment. Each branch consists of an Upper Divisional Assistant and few clerks to man file works.

## **ABOUT WOKHA**

### **BRIEF INTRODUCTION OF THE DISTRICT**

In the year, the British Government occupied Wokha as the District Hq. of Naga Hill under Assam. In the year 1878, the Hq. was shifted to Kohima and Wokha remained as Sub - Division. Again in 1889, the Sub - Division was shifted to Mokokchung. Only in the year 1957, when Mokokchung became a District through the creation of NHTA Wokha again became a Sub - Division. During the first General Election of January 1964, there were Five (5) Assembly Constituencies in the Sub - Division among the total of 40 Constituencies for the State of Nagaland, then Mon, Tuensang were under the direct supervision of the Governor for a limit of 10 years 1973, Wokha District was created and the third General Election was held in 1974, with the additional 20 Constituencies for Tuensang and Mon District. It was during this election, in the re - distribution of constituencies, the number of Assembly Constituency for the Wokha District was reduced to 4 and it remains till date.

## **SIGNIFICANCE**

- Before Christianity came into our land, the Kyongtsu (The Lothas) worshipped the God of the earth and the God of Sky in the form of religious celebration, festivals and feasts. In those days all religious matters were performed under the leadership of the priest in the village and the administration was in the hand of the Dungti and Chochang (Village Administrators). Tokhu means going out in groups from house to house, taking food and drinks. Emomg means the Halt on the appointed time.

## Location & Geographical Area.

The Wokha District is situated in the mid western part of Nagaland State, adjacent to Golaghat and Jorhat districts of plain in State of Assam. It is bounded by Mokokchung District in the North, Kohima District in the South, Zunheboto District in the East and the State of the Assam in the West. The Wokha District is situated at a latitude of 26° '8' North and a longitude of 94° '18' East.

### 1.1 Topography

The Topography of the district is more or less similar with that of other district in the state, having ranges and ridges di-sected by seasonal streams. The altitude ranges from 304.3 Mtrs to 1313.67 Mtrs (MSL). The climate is warm in the lower plain areas, moderately warm in the upper region during summer but cold in winter. The monsoon starts from May and continues till October. The annual rainfall varies from 200 cm to 250 cms.

The District is divided into three (3) ranges, which are as follows: -

1. Wokha Range or Upper Range, which falls in the upper North Eastern parts of the district.
2. Sanis Range or Middle Range, which covers the middle part of the district.
3. Bhandari Range or Lower Range is the outer most part of the district which extends from the Japukong range of Mokokchung District and gradually slopes down to the Assam plains in the North Western side. Two of the most fertile valleys are in this range and they are the Baghty and churung valleys.

The highest mountain peak is the Tiya Enung, with an altitude of 1970 mtrs. Important rivers which flow through the District are Nzhuh and Nruk. The district lies in a seismically active earthquake zone.

## 1.2 Availability of Minerals.

### Production of Mineral 2010-11

Sl.No	Name of Mineral	Production in tones 2010-11
Major Mineral		
1.	CRUDE OIL OF PETROLUUM AT CHANGPANG,	Nil
Minor		
1.	Hydrocarbon	N/A
2.	Coal	N/A
3.	Sandstone	500 tones
4.	Boulder stone	2000 tones
5.	Granite	200 tones

**Source: - Dept of Mines & Geology**

## Minerals:-

Wokha district is situated in the mid-western part of the state. The landform of the district is marked by a series of sub-parallel hill ranges running in a north-east to south-west direction rising one after another towards east with intervening valleys. They are comprised of tertiary sequence belong to an igneous and sedimentary types.

The western part of the State of Nagaland which includes Wokha district has been surveyed by Assam Oil Company, subsequently geological and geophysical surveys have been carried out by Oil and Natural Gas Corporation (ONGC). As a result of these surveys, it has been revealed that a large thickness of sedimentary rock sequence of tertiary age is exposed in this area. The boundary between Naga -hills and upper Assam plain is marked by thrust fault – Naga thrust. The rocks underlying the Naga thrust are in general undisturbed. On the basis of these surveys along with laboratory analysis of the rock samples, it was assured that this part of Nagaland holds good hydrocarbon prospects, particularly within the lower tertiary sequence. Under this condition, the ONGC drilled a well in 1973 in Changpang area of this district which proved the existence of commercially exploitable hydrocarbon. On the foot hills of the district, coal deposits have been located in various places. Besides coal, sandstone suitable for, Granite, etc road metals also occurs in abundance in the district.

## Blacksmithy:-

Blacksmithy is also an important Industry because all the agricultural tools and ceremonial weapons are its products. There is also a great demand for indigenous blacksmithy product, but this profession is only a part – time or vocation of some people. The Lothas though practice of the trade, regard it as a very unlucky and believe that no blacksmithy lives long after he stops work.

## Industry:-

The district has some cottage Industries such as weaving, poultry, blacksmithy, carpentry and other handicrafts. Weaving is one of the most common Industries found in almost all the household. Weaving is a prerogative of the women. It has come down from mother to daughter and so on. Every Lotha household makes its traditional clothes for both men and women. They make various designs on the mekhalas and shawls. There are different kinds of shawls with different designs for use of people of different social status. It may be mentioned that person having given feasts of merit, are entitled to use one particular shawl which the common people are not entitled to. But nowadays the age-old tradition of restriction on use of such clothe is disappearing. There are different kinds of shawl with different social significance. In modern times, the people are wearing neckties, bags etc. of various designs, apart from the traditional clothes.

**Poultry** is an important age-old industry which is still practiced in the upper range of the district. The type of pots produced from this area is very thick and is useful for cooking purpose and as container of valuable household goods.

Cane and Bamboo works is another important industry which the Lothas inherited from their forefathers. Bamboo tubes (chunga) are not only use for water containers but are use for cooking rice in festival occasions. Bamboo crafts, with engraved figurines studded with black paintings, such as bowls and mugs have artistic value. Parts of their ornamental dress such as fillets, leggings, headgears waver of cane have similar artistic significance. Baskets making is also harvested crops but also for carrying purpose.

## 1.4 FORESTRY.

The district abounds in forests. Inside the district, jungle clad mountain in their verdant colour stand, but being located far from human habitation, the jungles with thick vegetation form the home of wild animals. There are varieties of orchids blossoming in different seasons of the year. From the forest, people get all sorts of building materials such as timber, thatch, cane, bamboo etc.

Sappers, creepers, barks, wild vied, tubers, bamboo and cane have multifarious use connected with the manufacture of rain proof coats, rain hats, baskets and robes etc. Wokha district consists of both deciduous and evergreen forest. In the lower altitude the trees are more evergreen than deciduous.

The Various species of trees and plants found in the district are – Champa (*Michelia Champaca*), Bonsum (*Ploebe goal parensis*), Amari (*Amora wallichii*), Sam (*Arthocarpers*)

Chaplasha), Simul (Bombox ceiba) Gamari (Gmelina arborca), Am (Mangifera indica), Hollock (Terminalia Myriocarpa), Gogra(Schima Wallichü), Walnut (Guglans regia) Jamuk (Syzygium cumint), urium (Biscotia Javanica), Bogi poma (chikrassia) etc.

Wokha is also famous for fruits like Oranges, Passion fruits, Plum and Bananas. The soil types are recent Alluvium, old Alluvium Mountains valley Lateritic soil, brows forest and podzolic soils.

Agriculture and allied activities are the principal means of livelihood for the vast majority of the population residing in the rural area. Rice is the major food crop and occupies 77% of the total cultivable area. Other major crops grown are maize, tapioca, pulses, soya beans and variety of organic vegetables, which are available in the local market year around

The staple food diets of the people are Rice, Bamboo shoot of various types, fermented of dried fish, yam, Molasses, Vegetables and meat, which is a delicacy. Foods are mostly boiled and species are rarely used. They are very particular, both in their food preparation and habit of taste. The people of the district also practice certain traditional cottage Industries mostly during the off season to meet their local requirements, like black smithy, traditional weaving, carpentry and handicraft etc. minerals like coal and crude oil are found at Changpang area in the lower range.

If you visit Wokha in the month of November, you will surely enjoy the hospitality of the people during their Principal festival" **TOKHU EMONG**" which celebrates thanksgiving, sharing and reconciliation with great feasting.

## 1.5 ADMINISTRATIVE SET UP:-

The following is the name of the District Administrative set-up in the Wokha, and the name of the charge officers with their Telephone Numbers: -

Sl.No	Name of Charge	Name of the Officer	Phone No.

### **3.4. Large Scale Industries/ Public Sector undertakings: - List of the units Wokha & Nearby Area:**

1. Doyang Hydro project (A Govt of India under taking NEPCO Ltd), Chukitong, Wokha, Nagaland
2. SBI, Wokha
3. BNSL Ltd, Wokha
4. Bank of Baroda, Wokha
5. Nagaland Rural Bank
6. Nagaland co-operative Bank Ltd, Wokha

### **3.5 Major Exportable item:-**

**Ginger, Oranges, Passion fruits, Plum and Bananas. Pineapple etc**

### **3.6 Growth trend: -**

The growth trend in the district is very low since no major Industries existed and employment scope is also very low. Roads are so to say the main means of transport and communication. However, the condition of most these roads are deplorable which is hampering the expansion of potentials economic activities in district.

### **3.7 Vendorisation/ Ancillarisation of the Industry: - Nil**

### **3.8 Medium Scale Enterprises:-**

#### **3.8.1 List of the units in Wokha & Nearby Area: - Nil**

#### **3.8.2 Major Exportable item: - Nil**

### **3.9 Service Enterprises: Nil**

#### **3.9.1 Potentials areas for service Industry: -**

Transport service, Enter-net café, Mobile repairing, Home appliances, Hotel, Fast food items etc

### **3.10 Potentials for new MSMEs:-**

The district of Wokha is considered backward as far as Industrial Activity is concerned. Traditionally, the people in the district work on metal with simple technology but most of the production is meant for household needs and requirement. Basketry, weaving, wood carving, pottery, Spinning and Carpentry are traditionally activities in which a sizeable number of the local people are skilled.

Along with traditional activities, The DIC, Wokha can introduce new Schemes for the benefits of Entrepreneur, to take up programmes for up-gradation new Technology under M/o MSME, Govt. of India like MSE-CDP, MSE-MDA, TREAD for women, Lean manufacturing, Design clinic, ICT, Bar Code, IPR etc in long run.

Development of agro-processing units like extraction of fibres from pineapple leaves, dehydration unit for ginger and cardamom, extraction of citronella oil are some potentials non-farm activities, which can be developed in the district. New scheme are patchouli cultivation, Tea garden and vanilla

cultivation in the district. On the basis of availability of raw material, labour and other infrastructure, non-farm sector investment in the district can be in the following areas:-

### **Agro-based.**

- a) Rice Mill
- b) Ginger processing (dehydration plant)
- b) Fruit/vegetable preservation/canning centre
- c) Starch production unit
- d) Poultry/ cattle feed plant
- e) Patchouli, Ginger, Tea garden, Vanilla etc
- f) Food processing products etc
- g) Piggery farm
- g) Soya milk and toffee processing unit
- h) Potato and Banana chips processing unit
- i) Pop corn making unit
- j) Pineapple juice & packing unit
- k) Passion fruits extraction & packing unit

### **FOREST based:**

- a) Agarbati bamboo sticks
- b) Furniture making
- c) Cane and bamboo unit
- d) Handicrafts
- e) wood curving
- f) Broom unit
- g) Ayurvedic Medicine
- h) bamboo Mat
- Door & window frame
- i) Floriculture

### **Mineral –based:-**

- a) Stone crushing
- b) Stone cutting & polishing
- c) Stone curving
- d) Boulder mall.
- E) Stone dressing
- f) cement Jally & other products
- g) Pottery
- i) Brickfield

### **Textile based:-**

- a) Tailoring unit
- b) wool weaving unit
- c) Hand loom unit
- d) Thread making unit
- e) Ready-made garments unit

### **Engineering based:**

- a) Fabrication of grills, iron gates etc
- b) Repairs to machinery
- c) Motor works
- d) Printing press
- e) Barbed Wire
- f) Agricultural Implements
- g) Tin-smithy
- h) Wax candle
- i) Washing Soap

### **Demand based:-**

- a) Auto repair works
- b) Confectionery unit
- c) Electrical Repair unit
- d) Pickle making
- e) Fish dry making
- f) Cyber café
- g) Internet service unit
- h) Green vegetables shop etc

The District Industries Center needs to be strengthened extension work achieve the growth envisaged by exploiting the estimated potential. The present position in regard to the infrastructure available in terms of training centers, road networks, services centers, etc is inadequate and need to be augmented to bring about appositive change in the climate. At present, the district has the following networks of centers/units.

1. Citronella distillation unit- 1
2. Citronella demonstration unit- 1
3. Rural artisan project training unit- 1
4. Barbed wire and wire nails units- 2
5. Steel trunk 5
6. Mini Cement plant 1

To encourage prospective entrepreneurs to take up industrials activities, there are provisions to provide margin money/ seed money/ subsidy by the implementing agencies. However there are several constraints that may be highlighted are:-

- a) Lack of basic infrastructure facilities, in-adequate marketing support/ accessibility and raw material supply.
- b) In-adequate power supply
- c) Shortage of skilled /trained manpower
- d) Lack of industrial experience, non-availability of managerial, administrative and Technical experience among the local entrepreneurs.
- e) High cost raw materials and transportation
- f) Lack of co-ordination among various development agencies
- g) Credit flow is very low due to poor return of bank loans.

**Credit programme for the year 2012-13 in Wokha district.** The credit programme for the year 2012-13 is estimated as shown below

District	No of brs	Crop loan	ATL	Total Agr	SSI	OPS	TPS	NPS	GT
