Brief Industrial Profile of Tripura (South) District

1. General Characteristics of the District

South Tripura District is one of the four administrative district of Tripura with its headquarters located at Udaipur. The district is situated approximately between longitude 91 degrees 18 minutes and 91 degrees 59 minutes east and between latitude 22 degrees 56 minutes and 23 degrees 45 minutes north. South Tripura District is bounded on the north by Dhalai District and West Tripura District, while on the other sides by international border with Bangladesh. The total geographical area of South Tripura District is 2966.2 km² which is about 25 percent of the total area of the state. The district came into existence on 1 September 1970, when the entire state was divided into three districts. The district headquarters are located at Udaipur. It is around 48 km from the state capital, Agartala. Udaipur is famous for the historic Matabari Temple. Also known as the city of lakes, it is an avid tourist destination.

District has five sub divisions (Udaipur, Amarapur, Belonia, Sabroom and Santirbazar). Tirthmukh another pilgrimage centre is also located in this district in Amarapur Sub Division.

The district resides in two Lok Sabha constituencies: Tripura West (shared with West Tripura district) and Tripura East (shared with Dhalai and North Tripura districts).

According to the 2011 census South Tripura district has a population of 875,144 roughly equal to the nation of Fiji or the US state of Delaware. This gives it a ranking of 471st in India (out of a total of 640). The district has a population density of 286 inhabitants per square kilometre (740 /sq mi) . Its population growth

rate over the decade 2001-2011 was 14.03 %. South Tripura has a sex ratio of 957 females for every 1000 males, and a literacy rate of 85.41 %.

In 1987 South Tripura district became home to the Trishna Wildlife Sanctuary, which has an area of 195 km². It is also home to the Gumti Wildlife Sanctuary, which was established in 1988 and has an area of 390 km².

1.1 Location & Geographical Area.

The district is situated approximately between longitude 91 degrees 18 minutes and 91 degrees 59 minutes east and between latitude 22 degrees 56 minutes and 23 degrees 45 minutes north. Total area of the district is 2966.2 sq.kms. The district headquarters is located at Udaipur.

1.2 Topography:

Geography of South Tripura District comprises three principal hill ranges. South Baramura and Deotamura hill ranges are completely in South Tripura District while apart of Atharamura hill also comes in the district. Deotamura is the principal hill range of South Tripura District having a length of 85 kms and forms the boundry between Amarapur and Udaipur Sub Division. Climate of this district is mostly warm and is characterized by a humid summer and dry cool winter with plenty of rains during July to October. Rainfall is received from the South –West Monsoon, which normally breaks in month of May. Autumn and spring seasons are of very short duration. Average annual rainfall in the district is about 2000 mm and the temperature varies between a maximum of 35.23 degree Celsius and minimum of 7.43 degree Celsius. Variation in temperature is comparatively lower during rainy season. Major rivers flowing through South Tripura District are Gomti River, Muhuri and Feni.

1.3 Availability of Minerals:

Of the total geographical area of Tripura, 76% can be marked as of “Tertiary” origin and 24% belong to Quaternary period; none of these contain any major mineral resource. A GSI Report of 1982 provide a list of Non-metallic and metallic mineral vis-a-vis their location or otherwise in Tripura (at page-6) indicating the poor profile.

The current production of natural gas is estimated at one million cubic meters per day. The available figure for 1990-91 to 1997-98 shows a fast increasing rate of production from 70 million tonnes per year in 1990-91 to 2.7x in 8 years reaching 196 million tones in 1997-98.

1.4 FOREST :

The state of Tripura, with a geographical area of 10491 km² is predominantly hilly (60%) & is surrounded on three sides by a deltaic basin of Bangladesh. The state is situated between 22°57' & 24°32'N and 91°10' & 92°20'E with tropic of cancer passing through it. The State is situated in the south-western extremity of North-East region of the country. It shares border (1001 km in perimeter) with Bangladesh, Assam and Mizoram. International border with Bangladesh is 856 km, which is almost completely open and porous.

Forest is an integral part of the culture and tradition of Tripura. It also maintains the environment, biodiversity, land, soil, water, air regimes. Any imbalance in equilibrium of the above components affects the system adversely and has an adverse impact on human life.

The State Forest Department manages the official recorded 6294.287 sq.km. of forest area in the state. The total forest area of South Tripura is 2005.4 sq.km. The revenue from forestry sector in 2010-11 is around Rs. 714.18 crores. The State is endowed with rich flora and fauna and therefore, growing of medicinal plants and herbs as well as other forest based industries including traditionally rich handloom and handicrafts industries have an immense potential to develop.

1.5 Administrative set up.

District has five sub divisions (Udaipur, Amarpur, Belonia, Sabroom and Santirbazar). Tirthmukh another pilgrimage centre is also located in this district in Amarpur Sub Division.

5. General issues raised by industry association during the course of meeting :

1. Facilities provided for Micro and Small Enterprises under Public Procurement Policy (CGSPP) may be made mandatory.
2. The freight charges may be increase for participants of NE Region to participate in Domestic Trade fair/ exhibition.

3. Under DONER Schemes the Autonomous bodies of MSME DO Ministry of MSME GOI. are imparting long term training to the prospective Entrepreneurs of NE region free of cost. However the to and fro fare is to be born by the participants. Which may be reimbursed to facilitate the poor tribal's of this region.

6. STEPS TO SET UP MSMEs:

Following are the brief description of different agencies for rendering assistance to the entrepreneurs.

7. Additional information if any:

a. There is acute shortage of prospective Entrepreneurs in Tripura South.

b. South Tripura District is in the western part of the State of Tripura .

About 60% of the area of the District is hilly. The district lacks infrastructural and other facilities. Though there is little number of industrial units in diverse field of manufacturing. The main problems being faced by the existing industries in the district as well as in the State are as follows:

- Transportation
- Finance
- Raw materials
- Marketing
