### 3.5 Major Exportable Item

Coffee and Cordamum are indirectly exported through important Metropolitan Cities like Bangalore, Mangalore and Chennai . Garments are also exported from SEZ units.

**3.6 Growth Trend :** The District has major strength for Development and promotion of Industries which are summarized as under. The district is ideally located in the State of Karnataka, in terms of its excellent climatic condition and labour harmony. The district has strong agricultural base. The district good technical man power is available. Infrastructure facilities are established in the district. There is growth due to establishment of industrial areas and many small scale industries can start production in Gherkins, and food related industries.

### 3.7 Vendorisation / Ancillarisation of the Industry :

Ancillaries in the field of Engg. IT related enterprises, and food products can be established in this district.

### **4.2 Details for Identified cluster**

**Present status of clusters:-** No proposal is sanctioned as on date and details are yet to be finalized by KCTU

## **5. General issues raised by industry association during the course of meeting**

Even though the district is endowed with rich resources the phase of development industries are very low because of the following facts:

Lack of entrepreneurship quality. Risk taking factor is very low of the people who can able to invest. The district is predominantly Agriculture based and people are more inclined towards Agricultural and allied activities.

Majority of required industrial spares are not available in the district. In adequacy of Electric Power in Growth Centers and Industrial Estates.
