# Brief Industrial Profile of Krishnagiri District

## 1. General Characteristics of the District:

Krishnagiri district was formed by carving out five taluks and ten blocks of the erstwhile composite Dharmapuri district as the 30<sup>th</sup> district of Tamil Nadu on 9<sup>th</sup> February 2004. 'Krishna' refers to 'black' and 'giri' refers to 'hill'. This district is gifted with black granite hillocks and named as "Krishnagiri". The region once came under the rule of Krishna Deva Raya and hence it might have been named after this king.

The Krishnagiri district has prehistoric importance. Archeological sources confirm the presence of habitats of mankind during Paleolithic, Neolithic and Mesolithic Ages. Various rock paintings and rock carvings of Indus Valley civilization and Iron Age seen in this district support the historical significance of this district. The heart of 'Krishnagiri', 'Hosur' and 'Uthangarai' were known as 'Eyil Nadu', 'Murasu Nadu' and 'Kowoor Nadu' respectively. During Chola period, Krishnagiri region was called 'Nigarili Chola Mandlam' and 'Vidhugadhazhagi Nallur'. Under 'Nulamba' rule it was popular as 'Nulambadi' according to historical sources.

This region was ruled by Pallavas, Gangas, Nulambas, Cholas, Hoysalas, Vijaya Nagar Emperors, Bijapur Sultans, Wudayars of Mysore and Nayaks of Madurai. In Mysore war II entire region of Salem and Karnataka came under Hyder Ali's control. Hyder Ali fought bravely against the English at Krishnagiri.

This region of Krishnagiri served as gateway of Tamil Nadu and the protective barrier for Southern region defending onslaughts from barriers with motives of imperialism and exploitation.

### 1.1 Location and Geographical Area:

Krishnagiri district is bounded by Vellore and Thiruvannamalai districts in the East, Karnataka state in the west, State of Andhra Pradesh in the North Dharmapuri District in the south. Its area is 5143 Sq. Kms. This district is elevated from 300m to 1400m above the mean sea level. It is located between 11° 12'N to 12° 49'N Latitude, 77° 27'E to 78° 38'E Longitude.

### 1.2 Topography:

Eastern part of the district experiences hot climate and Western part has a contrasting cold climate. The average rainfall is 830 mm per annum. March - June is summer season. July - November is Rainy Season and between December - February winter prevails.

### 1.3 Availability of Minerals:

"Paradise" is the most popular multi coloured granite available in Krishnagiri. Black granite is available in Hosur and Denkanikottai. Granite processing units, which make slabs of granite, finished and decorated beautifully is located mainly in Hosur surroundings. The multi coloured paradise slabs are being exported to America, England, Australia and some other European countries in large quantities. This industry is flourishing with the uninterrupted supply of electricity and availability of raw material and land at cheaper rates. A variety of quartz stones from Denkanikottai and White metal called Limestone from Uthangarai are mined.
