Brief Industrial Profile of Sonitpur District

1. General Characteristics of the District

Sonitpur, one of the 27 districts of Assam is located on the north bank of river Brahmaputra. The Sonitpur district was created in 1983 after the split from Darrang. Tezpur town is the Head Quarter of the district. Tezpur can be described as the cultural capital of Assam. Every landscape of Tezpur reflects its rich cultural heritage since time immemorial. Tezpur was a cradle to three doyens of Assamese Culture: Rupkonwar Jyotiprasad Agarwala, Kalaguru Bishnu Prasad Rava, and Natasurya Phani Sarma.

1.1 Location & Geographical Area.

Sonitpur district is spread on northern bank of the river Brahmaputra. It is bounded by the state of Arunachal Pradesh towards north, **Morigaon, Nagaon, Jorhat** and **Golaghat** districts of Assam towards south, **Lakhimpur** district in the east and **Darrang** district in the west. **Sonitpur** district is spread over an area of 5324 sq. kms. on north bank of Brahmaputra river. In terms of area Sonitpur is the second largest district of Assam after Karbi Anglong district. The District lies between 26° 30' N - 27° 1' N latitude and between 92° 16' E – 93°43'E E longitude. Located between mighty Brahmaputra River and Himalayan foothills of Arunachal Pradesh, the district is largely plain with some hills. Brahmaputra River forms the south boundary of the district. A number of rivers which originate in the Himalayan foothills flow southwards and ultimately fall in Brahmaputra River.

1.2 Topography

Sonitpur District falls in the Sub-Tropical climatic region, and enjoys Monsoon type of climate. Summers are hot and humid, with an average temperature of 29° C. The highest temperature is recorded just prior to the onset of Monsoon (around May-early June). Summer rain is heavy, and is principally caused from late June to early September by the moisture-laden South-West Monsoon, on striking the Himalayan foothills of the north. Such rain is both a boon and a bane for the people. A boon, for it provides natural irrigation to the fields; and a bane, as it causes the rivers to overflow their banks and cause floods. Autumns are dry, and warm. It gets cooler as the months progress. Winters extend from the month of October to February, and are cold and generally dry, with an average temperature of 16° C. It gets quite chilling in late December and early January, on account of snowfall in the upper reaches of Arunachal Pradesh. Springs are cool and pleasant, occurring in the months of late March and April. Of course, during these months, flash rains and thunderstorms are at times caused.

1.3 Availability of Minerals

Production of Minerals 2010-11

Sl. No.	Name of Mineral	Production in Tons (2010-11)
Major Minerals		
1.	Data not available	
Minor Minerals		
1.	Data not available	

1.4 FOREST

Total forest cover of the district is 134905.074 hectare. All of these are Reserved Forest. The total forest area does not include unclassified state forests.

1.5 Administrative set up.

The Deputy Commissioner is the Head of the District administration. Tezpur town is the Head Quarter of the district. The district has three sub-divisions. These three sub-divisions are further divided into 7 revenue circles. There are eight Vidhan Sabha constituencies of this district. All of these are part of Mangaldoi Lok Sabha constituency.

Sonitpur is an important administrative district of Assam with its headquarters located at Tezpur town. Both the names – Sonitpur and Tezpur are referred to as “city of blood”.
