Brief Industrial profile of Thoubal District

1. General Characteristics of the District:

Thoubal District came into existence in May 1983, carved out of the erstwhile the Manipur central district. The district of Thoubal, which occupies the bigger portion of the eastern half of the Manipur Valley, takes the shape of an irregular and triangular with its base facing north. Although little is known about its ancient history, the district has in recent past, seen many bloody and disgraceful battles. Through the district runs an international road that leads to Myanmar (Burma) via Moreh and Tammu and this road is, in the days before the independence of India, the route of many military expeditions and counter-expeditions by the forces of Manipur and Burma, and later on, by that of the British Government. It is in this district, at Khongjom, that the last battle of the independence of Manipur was fought in April, 1891 by a few and ill-equipped soldiers of Manipur against the might of the British empire where the sun does not set, as the saying goes. It is not just an irony of the fate that Major Paona Brajabashi and others would meet their last days in this battle. The battle symbolizes the honourable deed of an extreme sacrifice for his motherland, knowing fully well that the fight would mean sure defeat. Among the natural calamities that had occurred in the past, mention may be made of the serious cholera epidemics of 1931 which took a heavy toll of the district population. Although the epidemic is widely spread throughout the Manipur valley it is felt in the district. The district came into existence in May, 1983 through a notification of the Government of Manipur, (Secretariat :Revenue Department Order No.6/1/73-R (Pt.VII) dated May 24, 1983) (Manipur Extraordinary Gazette No. 76 of the same date) under the Manipur Land Revenue and Land Reforms Act.1960. By the said notification, Thoubal sub-division of the erstwhile Manipur Central District (now Imphal district) with all its administrative units was transferred to form a new district under the name of Thoubal with its head-quarters at Thoubal

1.1.1 Location & Geographical Area:

The district lies between 23° 45' N and 24°45' N latitude and 93°45' E and 94°15' E longitude. It is bounded on the north by Imphal district, on the east by Ukhrul and Chandel districts, on the south by Chandel and Churachandpur districts and on the west by the districts of Imphal and Bishnupur. It has an area of 514 sq.kms. as supplied by the Surveyor General of India. Its average elevation is not very much different from the rest of the Manipur Valley which is about 790 metres on an average above the sea level. The NH-39, (Life line of the state) runs through the heart of the district, that leads to Myanmar (Burma) via Moreh (India) and Tamu (Burma).

1.1.2 Topography:

The soil of the district are clay soil, Loamy soil, Red soil, Peaty soil and sandy soil that makes the district very fertile for agricultural crops. The important Lakes in the district are the Ikkopat, the pumlenpat, the lousipat, the kharungpat and the Waithou pat. These lakes provides a good fishing facility to the people and provide a means of livelihood. The main rivers that flow through the district are the Thoubal river, The Iril River, The Imphal River

and the Sekmai River. The Thoubalriver originates from the hill range of adjoining Ukhrul district over which the Thoubal Dam is constructed.

The district is dotted by a few hillocks and hills of low heights. Some of them are without, part of Khekman range, Mantak, Kwarok and ThongamMondum-Punam.

1.3.1 **Availability of Minerals:**

The district is generally poor in mineral resources. Among the minerals found in the district, brine spring are of some significance. This springs are found along the foothills on the eastern part of the valley. Water from this springs are boiled and salt is extracted by the method of evaporation.Salt is manufacture in the form of beautiful cakes and they are consider to have a good medicinal property. These salt cakes are used in ceremonial purposes also. Important places where brine springs are found are Waikhong, Sikhong, Chandrakhong, Ningel etc. The district has a number of places where red clay suitable for pottery is found. These are mainly available on the eastern side of the valley around Waikhong, NongpokSekmai, Thongjao, Chairel etc. Naturally these areas are associated with pottery of very good types. Some qualities of low grade iron ore is found at Kakching.

PRODUCTION OF MINERAL 2010-11:

1.4 **Forest:**

1. Geographical Area	: 514 Sq. Km.
2. Forest Area	: 3.60 Sq. Km.
a. Reserved	: 3.50 Sq. Km.
b. Protected	: 0.10 Sq. Km.

1.5 Administrative set up:

For administrative convenience, the District has been divided into 3(three) sub Divisions namely:

- (i) Kakching Sub-Division
- (ii) Thoubal Sub-Division
- (iii) Lilong Sub-Division

Besides, there are two municipalities and seven Small Town Committee, forty two panchayats .And there are also two community development Blocks i.e Thoubal C.D and kakching C D and there are 126 revenue villages in the district.

Source :DIC, Thoubal

3.4 large Scale Industries / Public Sector undertakings:

There is no Large Scale/Public Sector Undertaking units in the district

3.5 Major Exportable Item:

Handloom and handicraft items, cane and bamboo products

3.6 Growth Trend:

The trend of industrial growth in the district is not very optimistic and there is no appreciable all round development as far as industrial growth is concern.

3.7 Vendorisation / Ancillarisation of the Industry:

Since there is no large/Medium units and PSU, there is no scope for vendorisation.

3.8 Medium Scale Enterprises:

The Khansari Sugar Factory at Wangbal is the only medium sized industry set up in the district in 1973 with an installed capacity of 60 tones of sugar per day. Although the factory was initially intended to provide employment to about 200 persons, its actual production during the years since it has been commissioned was so much behind the targeted production that it is now running at huge loss.

3.8.1 List of the units Thoubal district & Near By Area: Nil

3,8.2 Major Exportable Item:Nil

3.9 Service Enterprises:

Hotels and Restaurants, Xerox and DTP centre, Automobile repairs and servicing, Repair & service of electrical and electronics appliances, Photography and Videography, transportation, printing press, , tourism & hospitality, heath clinic.

3.9.2 Potential areas for service industry:

Flex printing, Health clinic and testing labs, Restaurants and Hotel/Motel, Repair and service of electronic, electrical, watches etc.2/3/4 wheeler servicing, Xerox and DTP centre and Internet café, Computer training centre, Tent house, Transportation, Tourism& hospitality services

3.10 Potential for new MSMEs:

A. Agro-based : Rice Milling, Potato chip making, Ginger candy and dehydration, Spices and condiments Mushroom cultivation and processing, Fruit and vegetable preservation , bread & biscuits/pastry.

B. Forest based:

Mechanized cane and bamboo, Wooden furniture, wood craft and carving

C. Sericulture based:

Mulberry cultivation, Cocoon rearing and silk reeling

D. Textile based:

Handloom and Handicrafts products, Readymade garments, tailoring and cutting & Embroidery.

E. Livestock based

Poultry farming, Hatchery and processing, , Dairy farming and milk products,

F. Engineering based:

Iron gates and grills, Steel Almirah, Table chair, and containers.

G. Other Industries:

Packed drinking water, medicinal herbs plantation/processing, pisciculture, prawn culture, floriculture

4. Existing Clusters of Micro & Small Enterprise:

Cluster are taken up in the trade of Handloom mostly by local weavers.

4.1 Details of major cluster: Handloom

4.1.1 Manufacturing Sector: Handloom

4.1.2 Service Sector: Nil

4.2 Details for Identified Cluster: Handloom Cluster:

4.2.1 Name of the cluster : Nil

5. General issues raised by industry association during the course of meeting:

There is no industry association in the district.

However, the general issues that concern industries are:

- lack of access of credit to existing & prospective entrepreneurs.
- Lack of support from the state Govt./other agency for industrial development
- Lack of skill manpower and trained hand.
- Unavailability of power
- Transportation and communication problem
- Used of obsolete technology
- Law and order problem

1.Prospect Of Training Programmes During 2012-13:

Sl. No	Name of the programme	Nos	Subject	No of proposed programme to be conducted
1.	ESDP	03	Tailoring Embroidery, Fruit &vegetable,processing,Repair&service of elect/electxapplaiances,mobile handsets	02
