Brief Industrial Profile of KHAGARIA District

1. General Characteristics of the District:-

Khagaria , as a district, is only twenty one years old . Earlier it was a part of the district of Munger, as a sub division. The sub division of Khagaria was created in the year 1943-44. It was upgraded as a district w.e.f.10th May, 1981.Khagaria was created mainly due to the difficulties arising out of a lack of easy means of communications.

It is said that the entire areas,now included in the district of Khagaria , was “Dahnal” affected by floods of the Ganga , the Gandak,the Kamla,the Bagmati and the Koshi and that because of its physical situation , any site of importance must have been washed away, that is why ,it does not posses any historical site of importance .

According to the history, commonly known in this part , it is said that during the time of Emperor Akbar. Raja Todarmal had been entrusted with the duty of making a survey of the entire area , but as he failed to do it , he advised that this area should be excluded, in other words , he adopted the policy of “FARAK KIYA “ and that is why the area is known as “PHARAK KIYA PARGANA”

1.1 Location & Geographical Area.
