PROJECT PROFILE ON WROUGHT IRON FURNITURE

1. NAME OF THE PROJECT : WROUGHT IRON FURNITURE

2. PRODUCT CODE : 342001000

3. QUALITY AND STANDARDS : NO STANDARD SPECIFICATIONS AVAILABLE. MANUFACTURERS’ OWN SPECIFICATIONS

4. PRODUCTION CAPACITY : Qty. i) 1500 Nos. of Wrought Iron Chairs ii) 1500 Nos. of Wrought Iron Tables iii) 1500 Nos. of Wrought Iron Sofa iv) 1500 Nos. of Wrought Iron Bed

Value : Rs. 133.5 Lakhs (per annum)

5. MONTH & YEAR OF PREPARATION : MARCH, 2011

6. PREPARED BY : MSME DEVELOPMENT INSTITUTE 4TH FLOOR, HARSIDH CHAMBERS ASHRAM ROAD AHMEDABAD – 380 014 (GUJARAT)

Tel. No. (079) : 27543147, 27544248 Fax No. 079-27540619 E-mail : dcdi-ahmbad@dcmsme.gov.in Website: ww.msmediaahmedabad.gov.in
1. **INTRODUCTION:**

   Wrought Iron articles in furniture industry are becoming more popular. The articles like chairs, sofas, tables and beds are made in quite attractive models with different designs on their arms and backs. Wooden furniture after some period is worn out due to defects in wood quality and normal wear and tear. Due to elegant appearance, durability and innovative designs, wrought iron furniture is becoming popular in modern society. They are fast replacing the conventional wooden tables, chairs, sofas and beds.

2. **MARKET POTENTIAL:**

   With increase in the population and overall development that has taken place in the country, the number of educational institutions, hospitals, commercial establishments and offices are widely using chairs, tables, sofas and beds. This is creating good market potential in urban and semi-urban areas. As already explained, due to certain specific advantages, wrought iron furniture is fast replacing conventional wooden items. Apart from the domestic market, there is also export market for quality wrought iron furniture.

3. **BASIS & PRESUMPTIONS:**

   (1) The cost of machinery and equipment is for particular make and prices are approximate.

   (2) All the operations involved in manufacturing wrought iron furniture will be undertaken in industrial workshop of the unit.

   (3) This project profile is prepared on the basis of single shift for 8 hours of working in a day. Total working days in a year have been assumed to be about 300 and efficiency 75%.

   (4) The skilled and semi-skilled workers in line are available in the local area.

   (5) The rental value of the land and built up area has been stipulated on the basis of rate prevailing in the industrial area. It may vary from place to place.

   (6) Rate of interest has been calculated @ 16% per annum. However, this figure is likely to vary depending on the financial outlay of the project and location of the unit.
(7) The provisions made in other respect viz. personnel, utilities, raw material and over head expenses etc. are based on the prevailing market rates.

(8) All the machinery, raw material would be available from indigenous sources.

(9) The break-even point has been calculated on envisaged capacity utilisation basis.

(10) The operative period of this project is estimated to be about ten years, considering technology obsolescence.

4. IMPLEMENTATION SCHEDULE:

1. Preparation of Project report : 1 Week
2. Provisional registration from DI/DIC of the area : 2 Weeks
3. Location of work shed with necessary infrastructure in Industrial area before ordering the Plant and Machinery : 2 Weeks
4. Placement or order for plant and machinery : 3 Weeks
5. Recruitment of staff : 2 Weeks
6. Installation of plant and machinery : 2 Weeks
7. Time allotted for other misc. work : 2 Weeks
8. Trial production : 2 Weeks

Total time required to start commercial production is estimated to be about four months.

5. TECHNICAL ASPECT:

Process of Manufacture

In the open market, plenty of raw material of wrought iron in the shape of round, square, iron rods, square pipes and also in other sectional forms is available. Wrought iron is having its own property of “malleability”, it can withstand the load without cracking.

Chairs, tables, sofas and beds used in offices, factories, houses and hospitals are made from light wrought iron sheets, strips and tubular wrought iron. The sheets, strips and tubular wrought iron are cut to required sizes and pressed to shape, bent in a press brake for sides and drawers. Pipes of wrought iron for chairs, tables, sofas and beds can also be sent according to design. Backs of chairs, sofas
and beds consist of decorative designing of various kinds of flowers and leaves etc. For this, design can be made on pressing machine on the strips of wrought iron of different sizes. Then the sides and backs of wrought iron furniture are welded. Holes are made by drilling, wherever necessary for fitting screws.

Fitting of doors, hinges, assembly, cleaning, pickling and drying are to be done before painting. The sprays painted articles are to be stove enamelled.

7. **QUALITY CONTROL & STANDARDS:**

There is no quality standard. It is only fabrication of wrought iron steels with various self made designs. The attractive designs thus put lot of cheeriness in the products of wrought iron furniture.

8. **PRODUCTION CAPACITY** (Per Annum)

It is proposed to manufacture 1500 chairs, tables, sofas and beds each per annum assuming their weight to be 7.5 Kg., 15 Kg., 22 Kg. and 30 Kgs. respectively of wrought iron steel viz. rods, pipes and strips of various sizes.

9. **MOTIVE POWER**: 10 H.P.

10. **POLLUTION CONTROL MEASURES**:

No Pollution control device is necessary for this project. However, spray painting will cause pollution to some extent, which can be minimised by installing exhaust fans in painting room.

11. **ENERGY CONSERVATION**:

No specific energy conservation system is required. Energy conservation can be done by saving single-phase power connections as much as possible. General awareness is to be created for economic utilisation of energy at all points as far as practical.

12. **FINANCIAL ASPECTS**:

A. **FIXED CAPITAL**:

   (i) **Land & Building**: (In Rs.)
Covered area of 200 sq. meter in which 50 Sq. meter room should be prepared for pickling of wrought iron furniture parts, where exhaust fans on top of room should be provided. Another 30 Sq. meter room must be provided for painting of furniture items of wrought iron.

(ii) Machinery & Equipments:

(iii) Utilities (per month): (In Rs.)

1) Electricity and Water charges 8,000

(iv) Other Contingent Expenses

1. Rent 15,000
2. Insurance Expenses 3,000
3. Advertisement/Publicity charges 5,000
4. Travelling Expenses 5,000
5. Consumable stores such as oil, lubricants and Cotton waste etc. 3,000
6. Repair and maintenance 2,000
7. Transport and packaging charges 4,000
8. Postage and stationery 3,000
9. Telephone Expenses 1,500
10. Miscellaneous Expenses 1,500

Total : 43,000

(v) Total Recurring Expenditure (per month) (In Rs.)

1. Personnel 91,000
2. Raw Material 7,67,200
3. Utilities 8,000
4. Other Contingent Expenses 43,000

Total : 9,09,200

(vi) Total Working Capital (for 3 months)

Rs. 9,09,200 x 3 = 27,27,600

C. TOTAL CAPITAL INVESTMENT:

(1) Fixed Capital 3,25,000
(2) Working Capital (for 3 months) 27,27,600

Total : 30,52,600
13. **MACHINERY UTILISATION:**

The number of machines to be installed has been determined in such a way, that planned scheduling of jobs will not cause any bottleneck in operation during bulk production. As such, the unit will make utilisation of machines as envisaged, without any bottleneck.

14. **FINANCIAL ANALYSIS:**

1. **Cost of Production (per annum)** (In Rs.)
   
i) Total recurring cost 109,10,400
   
ii) Depreciation on Machinery & Equipment @ 10% 26,000
   
iii) Depreciation on Furniture and Office Equipment @ 20% 4,000
   
iv) Depreciation on Tools and Dies @ 25% 7,500
   
v) Interest on total Investment @ 16% 4,88,416
   
---

**Total :** 114,36,316

2. **Turnover (per year)** (In Rs.)
   
i) By sale of 1500 Nos. of Wrought Iron Chairs @ Rs. 600 each 9,00,000
   
ii) By sale of 1500 Nos. of Wrought Iron Tables @ Rs. 1800 each 27,00,000
   
iii) By sale of 1500 Nos. of Wrought Iron Sofas @ Rs. 2500 each 37,50,000
   
iv) By sale of 1500 Nos. of Wrought Iron Bed @ Rs. 4000 each 60,00,000
   
---

**Total :** 1,33,50,000

3. **Net Profit** (Per year)

Rs. 1,33,50,000 – 114,36,316 = Rs. 19,13,684

4. **Profit Ratio**

\[
\text{Profit Ratio} = \frac{\text{Net Profit} \times 100}{\text{Turn Over Per Year}}
\]

\[
= \frac{19,13,684 \times 100}{1,33,50,000}
\]

\[
= 14.34\%
\]

5. **Rate of Return**

\[
\text{Rate of Return} = \frac{\text{Net Profit}}{\text{year}} \times 100
\]
Capital Investment

= 62.7%

6. Break-even Point

(i) Fixed Cost (per year) (In Rs.)

a) Depreciation on machinery
Office Furniture, Tools and Dies etc.
37,500
b) Rent
180,000
c) Insurance
36,000
d) 40% of Salaries and wages
4,36,800
e) 40% of other Contingent expenses other than Rent and Insurance
1,20,000
f) Interest on total investment
4,88,416

Total : 12,98,716

(ii) Net Profit (per year)
19,13,684

B.E.P. = \frac{\text{Fixed Cost} \times 100}{\text{Fixed Cost} + \text{Net Profit}}

= \frac{12,98,716 \times 100}{12,98,716 + 19,13,684}

= 40.4%
15. **NAMES & ADDRESSES OF MACHINERY & EQUIPMENT SUPPLIERS**

    **For Treadline Guillotine m/c.**

   A-287, Okhla Indl. Area, Phase-I  
   New Delhi – 110 020.

2. M/s. Lamba Press and Shears  
   6/10, Kirti Nagar Indl. Area  
   New Delhi – 110 015.

3. M/s. Om Mechanical Works  
   Plot No. 5, Gali No. 4  
   New Rohtak Road Indl. Area  
   New Delhi-110 005.

   B-96, Mayapur, Phase-I, Rewari Line  
   New Delhi-110 064.

    **For Power Press**

1. M/s. Lamba Bros (P) Ltd.  
   6/10, Kirti Nagar Indl. Area  
   New Delhi – 110 015.

   Ludhiana.

For Hand Operated Brake Press

1. M/s. Modgil Co.,  
   G.T. Road  
   Batala-143 505.

   Near Kishan Cold Storage  
   Dr. Vikram Sarabhai Marg  
   Gondal Road, Rajkot-360 004.

   B-226, Naraina Indl. Area, Phase-I  
   New Delhi – 110 028.

For Drilling Machine

1. M/s. Modern Tools Manufacturers  
   B-118, Phase-I, Mayapuri Indl. Estate  
   New Delhi.

   24, Najafgarh Road  
   New Delhi-110 015.

   27, DLF Indl. Area  
   Najafgarh Road (Moti Nagar)  
   New Delhi-110 015.

For Welding Sets

1. M/s. Kukreja Welding Equipments  
   A-63, G.T. Karnal Road  
   Indl. Area, Delhi-110 033.

   23, New Qutab Road, Indl. Area  
   Opp. Telewara  
   Delhi-110 006.

   G.T. Road By Pass  
   Near Indl. Estate
Jullunder City (Punjab).

For Pickling Plants

1. M/s. Govan Indl. Corporation
   29-2, Indl. Area
   New Rohtak Road
   New Delhi.

For Air Compressor

1. M/s. Indoorn Projects and Equipments
   D-170, Okhla Indl. Area, Phase-I
   New Delhi-110 020.

2. M/s. Three-F-Filters (P) Ltd.
   C-110/1, Naraina Indl. Area, Phase-I
   New Delhi-110 028.

   S/228, Indl. Area
   Jallandar City.

16. RAW MATERIAL SUPPLIERS

Raw material is available in the local market.
