FOREWORD

The Micro, Small & Medium Enterprises Development Institute, Okhla, New Delhi has prepared an Industrial Profile of Faridabad Distt., Haryana. The objective to prepare the Industrial profile of the district is to make the information readily available in respect of location, administrative set up, industrial area available, growth of MSMEs, trend of MSMEs, clusters etc to the existing as well as prospective entrepreneurs. The available data have been compiled and the profile is prepared. It is expected that this industrial profile will be useful for Government & non-government promotional & developmental agencies engaged in promotion and development of SMEs in Faridabad district.

I take this opportunity to express my gratitude to the Joint Director, DIC, Faridabad and heads of other department for extending their co operation in preparing this industrial profile.

I also place on records my appreciation to Ms. Shivani, Asstt. Director of this institute for her hard work in bringing out report in this form.

Brief Industrial Profile of Faridabad District

1. General Characteristics of the District:

Faridabad was founded in A.D. 1607 by Shaikh Farid, treasurer of Jahangir, with the object of protecting the highway which passed through the town. Shaikh Farid built a fort, tank and mosque which are in ruins. It becomes the headquarters of a pargana which was held in jagir by the Ballabgarh ruler. The district Faridabad came on the map of Haryana on 15th August, 1979 as the 12th District of the state. The new District was carved out from erstwhile Gurgaon District.

1.1 Location & Geographical Area :

The district is about 25 kilometers from Delhi. It is bounded by Union Territory of Delhi (National Capital) on its north, Palwal District in the south, Gurgaon District on the west. The rivery Yamuna separate the District Boundry on eastern side with UP state. Delhi-Agra National Highway No.2 passes through centre of District. There are three railway stations on the Delhi Mathura triple track broad-gauge line of the Indian Railway.

1.2 Topography :

Faridabad district shares its boundary with the National Capital and Union Territory of Delhi to its north, Gurgaon district to the west and Uttar Pradesh to its east and south. The district enjoys an important location geographically as well as politically.

3. INDUSTRIAL SCENERIO OF DISTRICT FARIDABAD

Faridabad has been one of the leading industrial districts of Haryana, a popular choice for setting up industry due to its proximity to Delhi and its location on the Delhi Mathura Road. Much before the advent of Gurgaon as the posterboy for Industrial Development in Haryana, Faridabad was the favourite destination of Industries. Faridabad is famous for manufacturing of Tractors, Switchgears, Refrigerators, Shoes, Tyres, Readymade Garments, construction machineries, Auto Mobile Parts and Light Engineering Products. Although, in the recent times, it has fallen much behind the neighboring towns of Noida and Gurgaon in attracting new investment in IT sector. It stills occupies an important place in the list of manufacturing hubs.

5. General issues raised by industry association during the course of meeting

1. **Land-** No land has been earmarked by the state govt. for SMEs running in the non conforming area. Industrial associations have been vocal in their requirement for organised industrial estates for varied sizes and purposes.

2. **Long-term strategic proposals of NCR**-Faridabad being a part of NCR has been identified for a number of proposals towards mutually benefiting economic growth like, the common economic zone, alternate wholesale market for auto parts, the peripheral expressways and so on. So, a time bound action plan is necessary on the part of NCRPB to implement the proposals.

3. The power supply in the district is irregular and insufficient. Besides, the power tariff is much higher in Haryana as compared to any part of the Country. Voltage fluctuations and frequent power cuts are causing thermal shocks to the plant and machinery ofthe enterprise. Some big industries slowdown their production or shift their unit to other state to over come shortage of electric power;

4. Common Tool Room and Testing Facilities are not available in Faridabad. Many MSME Units are not able to set up Tool Rooms and Testing facilities independently. It is necessary that Government set up such facilities and they can charge reasonable amount for the service they render;

5. Insufficient testing facilities in the District;

6. Inadequate flow of market information;

7. Difficulties in getting Bank loans due to cumbersome procedures & lacking of awareness;

8. Slow Technology up gradation ;

9. Weak linkages between Enterprises and Institutions;

10. Low level of labour productivity due to lack of proper training;

11. Lack of proper maintenance of the Roads;

12. There is still scope for widening the demand for products of MSME Units.

6. Prospects of Training Programmes during 2016-17
