3. INDUSTRIAL SCENARIO OF SURAT:

Industrial development in Surat district is attributed to the presence of a large number of diamond processing, textiles and chemical & petrochemical industries. It processes 10 out of out of 12 varieties of diamonds in the world contributing to Rs. 45,000 Crore, which is approximately 65 % of the total diamond exports from India.

7.

It is also known as synthetic capital of India hosts over 65,000 power looms and provides over seven lac jobs in the district. Surat has been very successful in attracting a sizeable amount of Foreign Direct Investment in various sectors like energy, oil, and petroleum. A significant investment of Rs. 3,000 crore (726 million USD) in Hajira terminal project is one of the largest Greenfield FDI's in India.

There are over 41,300 small and medium industries functioning in the district. Some of the main industries are textiles, chemicals, dying & printing, diamond processing, zari (silver) making, and; engineering and related activities (including manufacturing machines & equipments). Maximum number of (nearly 24,000 units) in small and medium enterprises is related to textile industry in the district followed by repairing & service industry with more than 11,000 units. Most of the small scale industries are located in Choryasi (Western Surat), Mangrol and Olpad (Northern Surat), Mandvi (Central Surat) and Palsana (Southern Surat) tehsils of the district.

The upgraded Surat airport is envisaged to offer direct air connectivity with important destinations in India and abroad. This is expected to boost commercial activities in the city as well as in the district, leading to upsurge in the demand in hospitality sector, which is primarily driven by the corporate tourism. Emergence of a petrochemical complex, gems and jewelry Park and the centrally promoted Surat SEZ are expected to further fuel the industrial and economic growth of the city. The expansion plans of Hajira port is envisaged in two phases. The first phase envisions the development of port infrastructure to handle liquefied Natural Gas (LNG) imports, and the second phase would offer port facilities for handling dry bulk and containerised cargo. The port facility would help in attracting sizeable investments in the coming future.

8.

Surat has a domestic airport which is well connected to different metros. It has daily flights to Delhi, Jaipur and Ahmedabad. Government of Gujarat has also undertaken an aviation master plan for the state with prioritises development as well as upgradation of Surat airport. The other nearest airports are Vadodara and Ahmedabad.

Magdalla & Hajira Ports in Surat have good rail and road connectivity. Magdalla port is only 2 km away from the state highway and 15 km away from NH-8. Hajira port in Surat has close proximity to the high speed dual carriageway which is under construction. The port is well connected with main Mumbai-Delhi Freight Corridor is expected to be a major driver for the industrial growth Hajira Port.

Hajira is known as the 'gateway port' to serve the hinterlands of North, West and Central India as it is situated in the midst of one of the most industrialized area in the country. It is deep water, all weather and direct berthing port in Surat. The existing industrial portfolio of Hajira includes industrial activities such as petrochemicals, fertilizers, heavy engineering, steel, energy and port related activities. More than 20 large and medium companies are located in Hajira, including Bharat Petroleum Corporation, Cairn Energy, Essar Power, Hindustan Petroleum and Larsen & Toubro, Reliance, NTPC among others. Shell has established an LNG Terminal at Hajira in 2004.

Magdalla port situated on the western coast of India in Southern Gujarat about 16 km upstream of Tapi river is a lighter age port. Magdalla port is only 2 km away from the state highway and 15 km away from NH-8. The nearby broad gauge railway line and Surat railway station are 15 and 16 km respectively away from the port. The port is well connected by road with Rajasthan, Madhya Pradesh, and North Maharashtra which are hinterland area to the port.

9.

The airport is only 4 km away. Essar Steel Ltd., Reliance Industries Ltd., Larsen & Toubro Ltd., and Gujarat Ambuja Co. Ltd. have constructed captive jetties for import and export of their products at Magdalla port. GMB is planning to develop a common user berth towards South of Essar jetty at Hajira. The location is falling under the administrative control of Magdalla Port authority. Fertilisers, soyabean, groundnut, coal, general cargo etc. can be handled at this proposed location.

Looking at the decadal investment trend in Surat District during 1998-07, Machinery and engineering sectors has succeeded to attract maximum investments of Rs. 12,567 Crore contributing nearly 35 % of the total investments. Electrical equipments, textiles and chemical sectors experienced an investment of Rs. 4,991 Crore, Rs. 3,823 Crore, and Rs. 3,683 Crore respectively. Textiles, engineering and chemicals were the sectors generating highest employment contributing nearly 31 % of the total new jobs respectively. Engineering, chemicals and textile sectors contributed to nearly 61 % of the new units established. Among them, textile sector has shown tremendous growth with emergence of 618 units.

3.4 Large Scale Industries/Public Sector Undertakings:

Industrial units having investment exceeding Rs. 10 crore in plant and machinery are classified as large industrial units. An Entrepreneur or a company desirous to set up a large project needs an approval in the form of industrial license from Government of India (GOI) under the provisions of Industries (Development and Regulations) Act, 1951. In July 1991, Government of India liberalized the licensing procedure and exempted almost all the industries from the purview of industrial licensing, except a few industries which are of strategic importance. As per the present licensing procedure, only two industries are reserved for public sector and four industries, which are of strategic importance, need an industrial license. The rest of industries are required to file Industrial Entrepreneur's Memorandum (IEM) with Secretariat for Industrial Approval, Ministry of Commerce & Industry, Government of India, on observing certain requirements with respect to location and environment. In the case of setting up of an Export Oriented Unit (EOU) or setting up a project in Special Economic Zone (SEZ), a Letter of Permission (LoP) is required to be obtained from the Development Commissioner of the concerned SEZ. Thus, the procedure for setting up a large industrial unit would be either filing of IEM, obtaining Letter of Intent (LOI)/ Industrial License or obtaining Letter of Permission (LoP) in the case of 100% EOU or SEZ unit.

There are nearly 805 medium and large industries having investment of Rs. 34,862 Crore and employment generation of 1,68,987 persons in the district.

15.

Large industrial units such as Reliance Industries, Kribhko, Larsen & Tubro, ONGC, Essar, NTPC, Reliance Petrochemicals Ltd., Gas Authority of India Ltd., Shell India Ltd. are contributing into industrial and economic growth of the district at present.

There are nearly 500 texurising and 400 processing houses, 65,000 power looms and diamond units exist in the district. So, there is necessity of spare parts, machinery, and stores materials etc. on large scale for these industries. Hence, there is huge potentials for establishing new ancillary engineering and packaging industries on large scale to suffice the necessities of these industries.

There are 230 Medium Scale & Large Scale Industrial (MSI\LSI) units in Surat and Choryasi, 22 MS\LSI in Olpad, 131 MSI\LSI units in Mandrol, 2 MSI\LSI in Kamrej, 116 MSI\LSI in Madvi and Palsana, and 8 MSI\LSI units in Mahuva tehsil respectively are operating in the district.
