Brief Industrial Profile of Chitrakoot District

1. General Characteristics of the District

On 6 May 1997 a new district was carved out from the erstwhile Banda district. The district was initially named as Chhatrapati Shahuji Nagar. On 4 September 1998, it was renamed as Chitrakoot district. Chitrakoot is a holy place famous both for its scenic beauty and spiritual altitude. A tourist is as much thrilled by sighting its beautiful waterfalls, playful young deer and dancing peacocks as a pilgrim is overwhelmed by taking a dip in the Payaswani or Mandakini river and by immersing himself in the dust of the Kamatgiri. From times immemorial, the Chitrakoot area has been a live centre of inspiration for cosmic consciousness.

Chitrakoot, 'the hill of many wonders' is a place of great mythological relevance and religious importance. It is associated with historic Ramayana

epic as this was the place where Lord Rama, Sita, and Lakshman spent their 11 years of exile.

In 2006 the Ministry of Panchayati Raj named Chitrakoot one of the country's 250 most backward districts (out of a total of 640) It is one of the 34 districts in Uttar Pradesh currently receiving funds from the Backward Regions Grant Fund Programme.

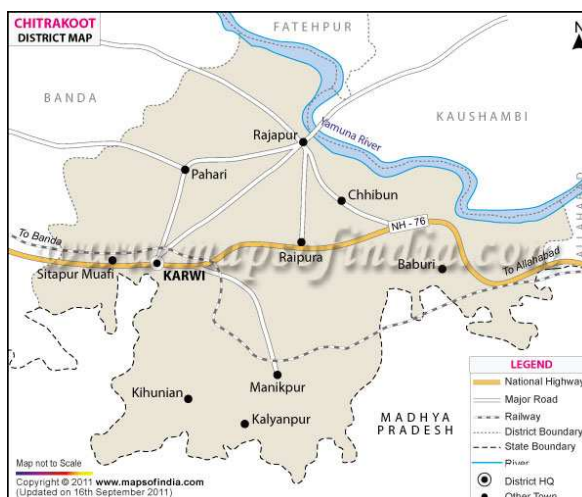

1.1 Location & Geographical Area:

District Chitrakoot lies between Lat. $24^{\circ} 48'$ to $25^{\circ} 12'$ N and Lang. $80^{\circ} 58'$ to $81^{\circ} 34'$ E. Distance covered by district from east to west is 62 Km and North to South is 57.5Km. It is bounded in the north by Kaushambi, in the south by satna (MP) & Rewa (MP), in the east by Allahabad and in west by Banda. The district is linked with Roadways to all adjoining district of Banda, Allahabad, Satna, Rewa and Kaushambi. Total geographical area of District is about 345291Sq. Km.

1.2 Topography:

The general topography is hilly and undulating cut off by numerous rivers and rivulets. Mandakini, Valmiki, Gunta, Gedua, Chakara and Jhuri rivers drain the region. The climate is dry and the maximum temperature goes up to 48.5°C in the month of May and minimum up to 5°C in the month of January.

Chitrakoot means the 'Hill of many wonders'. Chitrakoot falls in the northern Vindhya Range of mountains spread over the states of Uttar Pradesh and Madhya Pradesh. The Chitrakuta region encompasses the District Chitrakoot of Uttar Pradesh and the District Satna of Madhya Pradesh. Chitrakoot Mountain range includes Kamad Giri, Hanumaan Dhara, Janki Kund, Lakshman pahari, and Devangana famous Religious Mountains. A large part of the district is a rocky and denuded forested upland called the Patha, which is inhabited by Kol tribals.

1.3 Availability of Minerals.

1.2 Forest:

The forest of the Chitrakoot predominantly consists of tropical dry mixed deciduous type. The total forest area in the Chitrakoot district is 59,767 Hectares which comes around 17.5% of the total geographical area of the district. The wood found in this forest is not of good quality and cannot be used for quality wooden furniture. The main forest species found in the district are Dhawa, Dhak, Ankol, Bhavya, Tinsa, Bel, Tendu, Bans, Kasmri, Neem, Sakhua, Barun, Mahua, Tilak, Ber, Aonla, Kadamb, Bent, Indrajau, Bijak, and Neebu with other flowering, fruiting and shade giving trees. Besides, several high value medicinal plants are also found in Chitrakot forests such as *Tinospora cordifolia*, *Gymnema sylvestre*, *Achyranthes aspera*, *Urginea indica*, *Curculigo orchoides*, *Dioscorea bulbifera*, *Desmodium gangeticum*, *Coccinia grandis*, *Cordia macleodii*, etc.

1.3 Administrative set up:

Chitrakoot district falls in Banda Division of Uttar Pradesh. Karvi town serves as district head quarters. The district comprises of only two Tehsil and 5 development blocks. Hence, maintenance of law and order as well as speedy implementation of the development works is very convenient for the authorities concerned,
