MAP OF CHANDEL DISTRICT

P R E F A C E

The present Report attempts to highlight the followings:

- State of the economy of the District
- Resource Base of the District
- Infrastructure conducive for industrial development
- A study of existing industries; and
- Identification of industrial potential in the District.
- cluster development
- Skill development training needs and other incentive/schemes etc.

Manipur as a whole is a hilly district and basic infrastructures for industrial growth is yet to be developed..An effort has been made to incorporate the aims, objectives and guidelines of the DC(MSME) as revised & updated from time to time. Mention may be made of the difficulties faced in gathering relevant information about the District as the administrative delineation is in nascent stages and dis-aggregated data for the District are not available from the concerned departments yet. as expected and most of potentials of the district is obtained from various persons who thoroughly knows about the district.

I would like to place on record my appreciation to all officials and persons for the various inputs received from them which makes possible of this profile. Andhanks are also due to the concerned District and State authorities for providing the necessary information.

I look forward to received continued support from all concern and committed to bring out a better & meaningful profile in near future.

Brief Industrial profile of CHANDEL District

1. General Characteristics of the District:

The Chandel District (formerly known as Tengenoupal District) came into existence on May 13, 1974. Its neighbours are Myanmar (erstwhile Burma) on the south, Ukhrul district on the east, Churachandpur district on the south and west, and Thoubal district on the north. It is about 64 km. away from Imphal. The National Highway No. 39 passes through this district.

The district is inhabited by several communities. It is sparsely inhabited by about 20 different tribes. They are scattered all over the district. Prominent tribes in the district are Anal, Lamkang, Kuki, Moyon, Monsang, Chothe, Thadou, Paite, Maring and Zou etc. There are also other communities like Meiteis, and Muslims (Meitei Pangal) in small numbers as compared to the tribes. Non-Manipuris like Nepalis, Tamils, Bengalis, Punjabis and Biharis are also settled in this district.

The Moreh town, the international trade centre of the state, lies on the southernmost part of the district. When the Trans-Asian Super Highway comes into existence, Chandel district will be one of the gateways to the Asian countries. Being a commercial town it attracts a large number of people from neighbouring places. Moreh is only 5 Km. from Tamu town, its Myanmar counterpart. Opening of the Border Trade turns Moreh into an important centre in the Northeast.

1.1 Location & Geographical Area:

The District lies in the south-eastern part of Manipur at 24°40' N Latitude and 93°50' E Longitude. It is the border district of the state with Myanmar (Burma)

1.2 Topography:

More than 90% of the total geographical area is covered by hill ranges running from North-East to South-East direction. Highest peak is in Eswani which is 8,348 ft. above msl. Three main rivers namely (i) the Sekmai river which originates and passes through the North Eastern part of Chandel district, (ii) Chakpikarong River which originates from Laimaton Hills and passes through Chandel and Chakpikarong Sub-Division and (iii) the Lokchao River which flows through Tengenoupal Sub Division.
