Brief Industrial Profile of District Raebareli

1. General Characteristics of the District

The district Raebareli which was created by the British in 1858 is named after its headquarter town. Traditionally it is believed that the town was founded by the Bhars and was known as Bharouli or Barouli which in course of time got changed into Bareli. The prefix, Rae, is said to be a corruption of Rahi, a village 5 Km west of the town. It is also said that the prefix, Rae represents Rae, the common of the Kayasths who were master of the town for a considerable period of time.

Since about the beginning of the media levels period of Indian history the region in the south of which the area covered by the district of Raebareli lies has been known as avadh or Sabhah of avadh. There is no doubt that the district has been civilized and settled life since very early times. The Quit India Movement was inaugurated on August 8, 1942 and district did not leg behind any others.

At the beginning of the 13th century, what is now Raebareli and the tracts around it were ruled by the Bhars, who were displaced by the Rajputs and in a few cases by some Muslim colonist. The south western part of the district was occupied by the Bais Rajputs. In 1958, it was proposed to form a new district with headquarters at Raebareli as a part of the Lucknow Division.

1.1 Location & Geographical Area.

The district is irregular in shape but fairly compact. In terms a part of the Lucknow Division and lies between Latitude $25^0$49’ north and $26^0$36’ North and longitude 80^0 41’ east and $81^0$50’ east. On the north it is bounded by Tehsil Mohan Lalganj of district Lucknow and Tehsil Haidergarh of district Barabanki, on the east by Tehsil Salon district Amethi and on the south east by paragana Ateha and the Kunda Tehsil of district Pratapgarh. The southern boundary is formed by the Ganga which separates it from the district of Fatehpur. On the west lies the Bighaapur Tehsil of district Unnao. According to the 2001 census the geographical area of the district is 3286 Sq. Kms. The area is liable to vary every year by reason of the action of the Ganga, for a small variation in the deep stream of the river makes a very noticeable change in the area of the district, which occupies the dirty fourth place in size among the districts of the State.

1.2 Topography

The district, as a whole, is fairly compact tract of gently undulating land. The elevation varies from about 120.4 Mtrs above sea level in the north west to 86.9 Mtrs above sea level in the extreme south east, on the banks of the Ganga. The highest points are the crowns of the watersheds of the different drainage channel which serve to divide the district in to five main physical units. The Ganga khadan, the Ganga upland, the southern clay tract, the central tract on the sea upland and the northern clay tract.

1.3 Availability of Minerals.

The district forms a part of the Gangetic plain which is of recent origin according to geological chronology and revela ordinary gangetic alluvium. The district being a part of the alluvial plain conforms to the same geological sequence as the plain itself. The only mineral of importance are reh and brick earth. Near about 90 brick fields are engaged to manufacture the bricks. There is no mineral available for industrial purpose in the district of Raebareli.

4	Turnover of the Clusters	Rs.3987.74 lakhs p.m.
5	Value of Exports from the Clusters	Marketing only MSP based and domestic market.
6	Employment in Cluster	776 persons.
7	Average Investment in Plant & Machinery	Rs.10.00 lakhs
8	Major Issues / requirement	Technical upgradation and financial support.
9	Presence of capable Institutions	Nil.
10	Thrust Areas	• Technology Upgradation is needed to reduce rice wastage. • Setting up of modern machines for inspection & packaging. • Smooth flow of working capital.
11	Problems & Constraints	1. Low productivity per ton of paddy. 2. Use of conventional technology for processing. 3. Mostly managed by owners and marketing is not paid proper attention. 4. Quality of rice products produced is inconsistent and broken percentage on higher side. 5. Lack of skilled manpower. 6. The rice milling units are scattered in 2/3 part of undivided district of Raebareli. 7. Marketing is mainly MSP based.

* Including undivided district of Raebareli.

Present status of the cluster:

DIC, Raebareli has informed that Cluster Members are not interested in soft intervention and number of units have also been reduced due to division of district Raebareli.

4.2.2 Name of the Cluster: Banarasi Saree, Naseerabad Block- Deeh.

1	Principal Products Manufactured in the Cluster	Banarasi Saree.
2	Name of the SPV	Varsi Janhit Seva Sansthan, Deeh Banarasi Saree Clustr Development Society
3	No. of Functional units in the Clusters	60 Nos.
4	Turnover of the Clusters	Rs. 1000 million
5	Value of Exports from the Clusters	Nil
6	Employment in Cluster	500 artisans. (Direct and Indirect)
7	Average investment in Plant & M/c	Rs. 1.00 lakh
8	Testing needs	Nil
9	Thrust Area	• Need for more mechanized production. • Facilities for dyeing & printing need to be developed. • Easy access to credit.
10	Access to Export Market	Nil.
11.	Problems & Constraints	1. Illiteracy of the artisan families. 2. Dependency on exhibition and Mela Sales. 3. Absence of R & D linkages for design and diversification. 4. Lack of formal training for storage of raw materials and finished products. 5. Lack of packaging facilities. 6. Lack of Brand name. 7. Lack of Tanabana equipments and dyeing facilities. 8. Shortage of working capital.

Present status of the cluster:

State Industries Department has prepared DSR and the same was sent to O/o DC (MSME), New Delhi. After reviewing the DSR O/o DC (MSME), New Delhi has issued letter instructing therein to submit revised Action Plan as per guidelines MSE-CDP. Currently this place exists in district Amethi (Sahu Ji Maharaj Nagar) under the jurisdiction of MSME-DI, Allahabad.

4.2.3 Name of the Cluster: Atta Chakki (Flour Mill)

1	Principal Products Manufactured in the Cluster	Atta.
2	Name of the Association	None.
3	No. of functional units in the Clusters	250 nos. approx. (engaged in production & job work)
4	Turnover of the Clusters	Rs. 1.5 crore. p.m.
5	Value of Exports from the Clusters	Nil
6	Employment in Cluster	650 persons approx.
7	Average Investment in Plant & Machinery	Rs.0.5 lakh
8	Major Issues	Lack of electricity and labour
9	Access to Export Market	Nil.

4.2.4 Name of the Cluster: Tailoring (Job work)

1	Principal Products Manufactured in the Cluster	Tailoring Job Work
2	Key Trade Association address	None.

5. General issues raised by Industry Associations during the course of meeting

1. Empowerment of infrastructure of the town and Industrial areas to provide proper power supply, roads, drinking water, sewerage and drainage. The industrial area should be developed on the lines of Noida so that the industrial areas can become a show case for new invest. To develop new industrial areas with modern facilities including IT Park and Internet Wireless facility.

2. The whole area should be developed in such a manner to have modern housing, educational, commercial facilities to attract new investment / entrepreneurs / technical personnel.

3. To associate the existing units of Raebareli with Rail Coach Factory at Lalganj as ancillary units as has been the case in J & K and Assam.
