Brief Industrial Profile of North 24-Parganas District **(WEST BENGAL)**

1. General Characteristics of the District:

The district of North 24-Parganas with its administrative headquarters at Barasat comprises five Sub-divisions viz. Barasat, Barrackpore, Bongaon, Bashirhat and Bidhannagar. The district is bounded by Nadia district in the north, South 24-Parganas in the south, Bangladesh in the east and keeps the Hooghly district, the river Hooghly and Kolkata at the west. The district of North 24-Parganas has an international border with Bangladesh in the east spreading for about 230 kms. The district with an area of 4034 sq. kms. has a population of 8934286 as per 2001 Census and thus shows the highest density with 2182 persons per sq. km. among all the districts in the State.

1.1 Location & Geographical Area.

The district lies between 23°15'2" N and 22°11'6" N latitude and 98°5' E and 88°20' E longitude. The geographical location of the district is shown in the table below:

Geographical location of the North 24-Parganas district

Latitude		Longitude	
North	South	East	West
23° 15' 2" N	22° 11' 6" N	89° 5' E	88° 20' E

1.2 Topography

The district of North 24-Parganas falls within the new alluvium sub-region of the lower Gangetic Plain (Zone-III) considered being most fertile for crop production. The soil type varies from sandy to clay sandy loam being the predominant ratio of high: medium: low land is 17: 33: 39. The soil of northern part of the district is sandy, in the central middle part it is sandy with clay loam and in southern side it is clay loam. The physiography of the district is mostly plain.

The main rivers of the district of North 24-Parganas are Ichhamati, Kalindi, Raimangal, Dansa, Borokalagachi, Benti, Haribhanga, Gourchrar, Bidyadhari, Hooghly, etc. Ichhamati is the longest among these rivers. It enters the district through Bagdah block in the north of the district from Nadia and flows south through Bongaon, Swarupnagar, Baduria, Bashirhat-I, Hasnabad and Hingaljanj. This river flows into river Kalindi and Kalindi in turn flows into Raimangal. It indicates the borderline between India and Bangladesh during its course of flow from Bashirhat to Hingaljanj. River Hooghly lies between Hooghly and North 24-Parganas district. Besides, Sunderban deltas make many rivers flow in this region due to high tidal water entering from Bay of Bengal.

1.4 FOREST

The district has no forest area as such excepting the Sunderbans Reserve Forests. The total area under reserve forest is 93.75 hectares covering 33.33% of the total geographical area of the district. Out of these 93.75 hectares, 63.00 have been earmarked as Bhimbhuti Bhushan Wildlife Sanctuary. However, these forests being positioned in the largest delta in the world, has a major role to play in maintaining the ecological balance of southern part of the State.

1.5 Administrative set up.

The district with an area of 4094 sq. kms. has 5 Sub-divisions, 22 Blocks, 33 Police Stations, 22 Panchayat Samities, 214 Gram Panchayats, 27 Municipalities and 1 Notified Area. The district headquarters is at Barasat. The details of administrative set up of the district are given in the following table:

3.7 Vendorisation / Ancillarisation of the Industry

Development of ancillary units depends upon the establishment of new industrial unit's mainly large scale/medium scale sector. It is already stated that about 180 large/medium scale units have been set up in the district, in addition to 63 electronic units in Salt Lake Electronic Complex. Most of the large scale units viz. jute mills, engineering units, textile mills, etc. came up in the district during British period and procure huge quantity of their requirement from SSI sector. Hence, the process of ancillarisation can be started by setting up units in the following areas:-

- 1) Corrugated paper boxes for packing
- 2) Card board boxes for packing of Hosiery products and leather shoes
- 3) Bobbin for jute & textile mills
- 4) Polyethene pouch for milk
- 5) Printing of Polyethene bags
- 6) Jute & textile machinery parts
- 7) Electronic parts
- 8) Tin container for paints and varnish
- 9) Parts for engineering items
- 10) Basic drug
- 11) Glass bottles
- 12) Plastic containers for paints & varnish
- 13) Railway wagon parts

3.9 Service Enterprises

3.9.1 Potentials areas for service industry

Though Small Scale Service & Business Establishment (SSSBE) like printing, tailoring, dry cleaning, batteries charging etc. are found working, it is gathered that there is still enough scope of these activities in the district. Activities like pathological laboratories, offset printing, beauty parlour, fabrication and engineering job work, etc. have enormous scope for exploitation. However, these establishments are suggested to be set up at places where the degree of urbanization is maximum.

The district is industrially advanced and highly urbanized. Salt Lake City Complex and Electronic Complex are located within the district.

3.10 Potential for new MSMEs

The primary objective of conducting Industrial Potentiality Survey for any district is to identify suitable industries which are considered viable for being set up in SSI sector of the district. With a view to select those industries, factors like infrastructure, resource, market, etc. have been analyzed in the fore-going Chapters. Besides, the team after having protracted discussion with various promotional agencies like D.I.C, Banks and different local bodies, has suggested the following items having scope for development in SSI sector.

A) Resource Based Industries

a) Agro-based Industries

- 1) Mini rice mills
- 2) Jute diversified products
- 3) Jute particle board
- 4) Handmade paper from waste jute
- 5) Tomato sauce and other tomato product
- 6) Pickles and chutneys from mango and mushroom
- 7) Dehydration of mushroom

- 8) Potato wafers and chips
- 9) Vegetable preservation and processing
- 10) Coconut broom stick
- 11) Coir products
- 12) Rice bran oil
- 13) Ayurvedic medicine from neem, haldi, tulsi, etc.
- 14) Potato powder/starch
- 15) Jute ply
- 16) Spice grinding (turmeric & chilli)
- 17) Noodle and macarony

- products
18) Rice products, i.e. flake, puffed rice and parched rice

5. General issues raised by industry association during the course of meeting

The industrial estates at Ashoknagar and Salt Lake (Electronic Estate) have to be developed further with proper amenities. There are some constraints regarding power supply, especially in the rural areas and the riverine Sunderban areas, which needs special attention. Since the district has a considerable number of large, medium & small scale industries, the industrial infrastructure needs to be properly revamped.

6. STEPS TO SET UP MSMEs

Following are the brief description of different agencies for rendering assistance to the entrepreneurs.

S. No	Type of assistance	Name and address of agencies
1.	Provisional Registration Certificate (EM-1) & Permanent Registration Certificate (EM-II)	District Industries Centre, Dte. of M& SSE, Govt.of West Bengal, 2, Barrackpore Road, Nabapally, Barasat, Dist: North 24-Parganas,
2.	Identification of Project Profiles, Techno-economic and managerial consultancy services, market survey and economic survey reports.
