Brief Industrial Profile of Uttar Dinajpur District **(WEST BENGAL)**

1. General Characteristics of the District:

Uttar Dinajpur district was formed on 1st April, 1992 by bifurcation of the erstwhile West Dinajpur district. It was included in the Jalpaiguri Division of the State. As the district is basically agrarian, most of the people depend directly or indirectly on agriculture. Industry is developing gradually as the new entrepreneurs are coming forward to adopt an industrial unit as their profession.

1.1 Location & Geographical Area.

Uttar Dinajpur district with an area of 3140 sq. km. is bounded by Darjeeling district in the North, Purnea district of Bihar State in the West, Malda and Dakshin Dinajpur district in the South and Bangladesh in the east. Geographically the district located between 26°35'15" N and 25°10'25" N latitude and 89°0'30" E and 87°48'37" longitude.

1.2 Topography

The soil of the district may be classified as old alluvium, alluvium and new alluvium. The texture of old alluvium varies from stiff clay to clay loam. The soil is deep and in reaction neutral to slightly acidic

The district is flat in general with a very gentle slope from North to South as a result of which the rivers generally have the same direction. Nagar, Mahananda, Kulik and Sui are the main rivers.

1.3 Availability of Minerals.

1.4 FOREST

The district is very poor in forest resources. Its total forest area occupies 580.54 hect. only 0.18% of the total geographical area of the district covers. Very negligible revenue is earned from forest produce. The main forest produce are timber, plywood and fire wood.

1.5 Administrative set up.

The Headquarters of the district is located at Karnajora near Raiganj. The district has 2 Sub-Divisions, 9 blocks, 9 police stations, 9 panchayat samities, 99 gram panchayats, 1422 inhabited villages, 1504 mouzas and 4 municipalities. However, the administrative set up of the district is given in Table.

5. General issues raised by industry association during the course of meeting

The district falls in the industrially backward category but has a strong agrarian base with fertile riverine soil. Large and medium scale industries are mostly inconspicuous in the district. The major problems of the existing industrial units are lack of modern technology, industrial accommodation, adequate power, smooth credit, etc. Proper industrial infrastructure has to be strengthened in the district. There is also no Industrial Estate in the district. Development of ancillary industries can be promoted only if more large scale industries are set up.
