1.1 Location & Geographical Area:

Washim is a fairly small district towards the southern center of Maharashtra State. Surrounded by Akola and Amravati on its north, Yavatmal on its east and south, Hingoli on its south and Buldhana on its west, it is on the western end of the Vidharbha region.

Connectivity:

There are two main roads that cross the district: Washim – Akola and Jalna – Amravati – Nagpur. The Khandva – Purna (on which Washim is a station) and Murtijapur – Yavatmal (on which Karanja is a station) rail routes also go through the district.

1.2 Topography:

Climate here is extreme and dry, with temperatures ranging from more than 45°C in the summer to less than 10°C in the winter.

Large area of the district lies in the Painganga River basin, which is the district's principal river. This river enters Washim from neighbouring Buldhana district in Risod taluka and joins the southern boundary of Washim. Other important rivers include Kaas, Chandrabhaga, Arunavati, Adan, Pus, Katepurna and Bembala.

Karanja, Mangarulpur and Washim talukas have a large number of wells, and most of the district's irrigation is through wells and rivers. Adan, located at Pimpri-Barhata in Karanja taluka is the district's largest irrigation project. Other medium and small scale irrigation projects in the district are Ekburji in Washim, Motsangavi in Mangarulpur, Giroli in Manora and Sonal and Adol in Malegaon talukas.

Cotton is the most important cash crop with the largest area under cultivation, followed by sorghum. Within the district, Washim taluka has the largest area under cotton cultivation. Washim is the largest producer of sorghum along with Malegaon and Mangarulpir. Risod, Washim and Manora talukas are also wheat producers. Green Chickpea is also cultivated on a large scale in Mangarulpir.

Other crops include sugarcane, oranges and betel leaf. Washim, Risod and Karanja have orange orchards. The area under cultivation of sugarcane is also growing in the district.

Industries:

The district being a producer of cotton, industrial activity is largely cotton-based, like the handloom industry which dates back to ancient times. In Mangarulpir, the cloth industry uses hand spun thread to make khadi. The only sugar factory in the district, Shri Balaji Cooperative Sugar Factory, is situated at Masalpen in Risod. There is a chemical fertilizer factory in Washim. Dhanaj in Karanja has a domestic LPG gas filling unit.

Almost every taluka in the district has ginning-pressing mills. Other industries include leather-goods, toys and other products from wood, nylon rope, silk thread production, dal mills and oil mills.

Agriculture is the main activity in this region. Some of the main crops that are grown in this very place include jowar, cotton, bajra, wheat, rice, tur and mango. Cotton, bajra, tur, wheat, jowar, mango, sugarcane and rice are the main crops of Washim District.
