Brief Industrial Profile of Satara District

1) General Characteristics Of The District:

Satara has historical background. Most of the prevailing kingdoms in north are having their traces in Satara district. In the year 1848, Satara was referred as Satara Province. At that time Satara province had 11 sub divisions. Viz Vijapur, Jawali, Karad, Khanapur, Khatav, Koregaon, Pandharpur, Satara, Tasgaon, Walva, and Wai. In 1884, Malkam Peth was constituted, which is referred afterwards as Mahabaleshwar. Two districts namely north Satara and South Satara were formed. Now North Satara is referred as Satara and south Satara is referred as Sangli. Satara district has eleven talukas. Variation in terrain is seen in the district.

1.1) Location & Geographical Area:

The district lies between 17.5 degree and 18.11 degree North latitude and between 73.33 degree and 74.54 degree East longitude. The district is completely landlocked being surrounded by Ratnagiri district on the West, Sangli district on the south, Solapur on the west, Pune on the north and Raigad on the north west. It covers 10,480 sq kms. Most of the central satara district's area falls in the river Krishna basin and limited area falls in the river Bhima basin.

1.2) Topography

1.2.1. Climate:

In summer, western part of the district experiences cool and pleasant climate and during the rainy season the climate is cold. In summer the central part of the district experiences hot climate. In winter the nights are colder and days are warm. The climate in eastern part is hot compared to western and central part. Change in season affect the climate in the district.

1.2.2. Rain Fall:

Eastern part of the district like Man taluka, part of Phaltan and Khatav experiences very low rain. Average annual rainfall recorded in the area is 443mm.

1.2.3. Soil:

The soil pattern in the district differs widely due to marked variations in the topography of the region. The soil in the hill slopes especially in the western part of the district is of low type, reddish in colour. The soil in the parts surrounding rivers especially of Krishna and Koyana in central part of the district is black. The land is very fertile. Kas and nearby area, western part of satara taluka has been declared as World Heritage Site. Here excellent flora and fauna is seen after

September. The soil type also varies from block to block. It ranges from light laterite type in hilly tracts of Mahabaleshwar, Jaoli, Patan to fertile black cotton soils in some parts of the district i.e. Phaltan & Karad

1.2.4. Rivers:

Krishna is the main river flowing in the district & its tributaries are Koyana, Urmodi, Tarali, Man, Venna, Kaudali, Vasana & Yerala. The major irrigation projects of Dhoni & Kanher are situated on the river Krishna and Venna respectively.

1.2.5. Demography:

As per 2001 census the total population of the district is 27.97 lacs with density of 267 persons per sq. km.. The male & female population is 14.02 lacs & 13.95 lacs respectively. The rural population & urban population is 23.99 lacs (86%) & 3.98 lacs (14%) respectively. The literacy rate in the district is 78.52% as against the state average of 76.2%.. Male literacy is 88.45% and the female literacy is 68.71%.

1.2.6. Occupational Structure:

According to 2001 Census, the total working population in the district was 21.86 lakhs, which was 43.77% of total district population. Out of total working population, 50.88% are engaged in agriculture and allied activities, 1.60% are in Cottage industries and remaining 47.52% are in other manufacturing and service industries.

1.3 Availability of Minerals:

There are no major mineral deposits in the district. However, Sand, Murum, Stone and clay are available in abundance, which can be suitably used for construction of roads and building. Traces of Iron ore are found in the western part of the District.

1.4) Forest:

Only 12% of the total area of Satara district is covered by forest. Forest Development Corporation, Maharashtra (FDCM) together with the Social Forestry. Department of Government is implementing the schemes for development of social forestry.

1.5) Administrative set up:

Satara district has three different terrains namely western hilly terrain, central Krishna river basin and eastern dry terrain. Satara City is the district head quarter & hence the Collectorate, Zilla Parishad & all the district level offices are situated

at Satara. The district consists of Eleven Tehsils/Blocks. Each Tehsil / Block is having Tehsil Office & Panchayat Samiti Office. These offices are exercising the administrative as well as all developmental control over the block. As per 2001 census there were 1707 revenue villages including 26 deserted villages & there are 1478 Grampanchayats / Group Grampanchayats. There are 11 towns in the

district & eight Nagar Parishads viz. Satara, Wai, Mahabaleshwar, Panchgani, Phaltan, Karad, Rahimatpur & Mhaswad
