Dholpur District

Brief Industrial Profile of Dholpur District

1. General Characteristics of the District

This district is formed on 15.04.1982. Dholpur District is a district of Rajasthan state in western India. The town of Dholpur is the district headquarters. Dholpur District has an area of 3034 Sq.km. The Chambal River forms the southern boundary of the district, across which lies the state of Madhya Pradesh. The district is bounded by the state of Uttar Pradesh on the east and northeast, by Bharatpur District of Rajasthan on the northwest, and Karauli District of Rajasthan on the west. All along the bank of the Chambal River the district is deeply intersected by ravines; low ranges of hills in the western portion of the district supply quarries of fine-grained and easily worked red sandstone.

1.1 Location & Geographical Area.

Dholpur is newly – formed district of Rajasthan carved out of Bharatpur district. This extends from 26d 22m to 25d 70m north latitude and from 76d 53m to 76d 17m east longitude. It is bounded on the north east by Agra district of Uttar Pradesh. On the south by Morena district and on the north of Bharatpur district. The total area of Dholpur is 300898 sq. hectares.

1.2 Topography

Range of sand stone hills runs from Dholpur town in a south western direction attaining at one place on attitude of 356.91 Meters above sea level. The land in Dholpur district is fertile and rises from alluvial plain near the level. Hills and broken grounds characterize almost the whole territory, along the vally of the Chambal as irregular and lofty wall of rocks separate. The land on the river from the uplands. The climate of Dholpur district is generally dry. Dholpur town is one of the hottest place in the Rajasthan state with maximum temperature rising up to 50dc and the

minimum upto 4dc. The average annual rain fall in the district is about 67cm. while in the year 2008 it was recorded at 110cm.

1.3 Availability of Minerals.

The mineral wealth the district is constituted by sand stone & limestone. A total of 87 mining leases are existing in the district.

The significant portion of Dholpur and Rajakhara subdivision area covered by the alluvium of the chambal velly. Vidhyanchal occurs in the range which runs from Fatehpur sikari towards Hindaun, in which the sand stone deposits area in plenty. The sandstone has been used as building material for many centuries. Among its varieties one is the dark – red with yellowish – white spots and another is yellowish –white spots other major minerals in the district are lime stone. Bajri and masonry stone.

3. INDUSTRIAL SCENERIO OF DHOLPUR DISTT.

Dholpur district is an industrially backward district, formally it was a part of Bharatpur and at that time is could not drawn much attention as regard to industrial development of the area. As regard to resources the district does not possess any major resources in abundance. On the other hand the infrastructure facilities seem to the level of satisfaction in the area.

3.6 Major Exportable Item:

Skimmed Milk powder.

3.7 Growth Trend for Large/MSME Sector:

During the last century, Dholpur remained industrially backward. It mainly depends on agriculture and only a few Micro and Small industries come up. It seems that talent did exist, which reduced with the passage of time due too lack of patronage on the part of the Government of the timeand also owing to waning interest and changing taste of local population.

Quarrying of building stone and gangshaw unit are the only activity which provide employment to the large number of people.

3.8 Vendorisation / Ancillarisation of the Industry:

1. In the gas based thermal power unit basic raw material i.e. natural gas is being imported from outside the state and there is a wide scope for repair & maintenance requirement of the industry.
2. In the unit M/s. Bhole Baba Milk Product Pvt. Ltd. there is huge demand of milk hence vendor can start milk chilling plants in large nos. to supply milk.
3. There is huge potential for packaging industry also

3.9. Medium Scale Enterprises:

9	Presence of capable institutions	nil
10	Thrust Areas	Technological Up gradation, process improvement , quality improvement, release of working capital from RFC.
11	Access to Export Market	UAE, USA

Present status of the cluster: - The cluster has been identified under MSE-CDP scheme and the preliminary proposal was submitted by the cluster stake holders in the year 2011-12 to the state government. SPV had already been formed .The preparation of DSR is under process.

5. General issues raised by industry association during the course of meeting

1. Non recognition of EM-II acknowledgment by some of the state government agencies.
2. Non availability of raw material for stone units due to non availability of lease on time of queries by mining department
3. CLCSS
 - I. lack of awareness among the branch level bankers.
 - II. There should be some mechanism for tracking of application status, so that the entrepreneur get present status of their application.
4. Bankers avoid accepting the cases under CGTMSE especially for the new entrepreneurs and insist for the collateral security.
