Brief Industrial Profile of Tonk District

1. General Characteristics of the District

Historical background-

Nawabi Nagari 'Tonk' is famous not only in Rajasthan but also all over India for its historical legends. As per the history, Jaipur's King Man Singh conquered Tari & Tokra Janpad in the regime of Akbar. In 1643 twelve village of Tokra janpad given to Bhola Brahmin. Later Bhola gave a name to these twelve villages as 'Tonk'.

The history of Tonk is very old as it is connected with Bairath culture & civilization. Tonk has been called Rajasthan ka Lucknow, Adab ka Gulshan, Romantic poet Akhtar Shreerani ki Nagri, Meethe Kharboojo ka Chaman, Hindu Muslim Ekta ka Maskan and as result of which Tonk could keep an isolated status in Rajasthan.

It is known as SAMWAD LAKSHYA in Mahabharat period. In the regime of Mouryas, it is under mouryas then it was merged in to Malvas. Most of the part was under Harsh Vardhan. As per HEVAN SANG, tourist of China, it was under Bairath State. In the regime of Rajputs, the parts of this state are under Chavras, Solankis, Kachvahs, Sisodiyas and Chouhans. Later, it was under the regime of King Holkar and Sindhia.

In 1806, Amir Khan conquered it from Balvant Rao Holkar. Later, British government gained it from Amir Khan. As per the treaty of 1817, British government returned it to Amir Khan.

ON 25th March 1948, when Nawab Mohd. Ismile Ali Khan was the ruler; Tonk was merged in to Rajasthan including an area of Tonk and Aligarh Tehsils of old Tonk State Newai. Malpura, Toda Raisingh and Uniara of Jaipur State, Deoli of Ajmer, Marwar and 27 villages of Bundi.

1.1 Location & Geographical Area.

The District Tonk is situated on National Highway No. 12 at distance of 100 kms from Jaipur. It is located between longitudes 75°07' to 76°19' and latitude 25°41' to 26°34'. It is bounded in the north by Jaipur district, in the east by Swai Madhopur districts and in the west by the Ajmer district. The total geographical area of Tonk district is 7.16 lac hectares, but for land utilization purpose the area is reported to be 7.19 lacs hectares in 2002-03 as per land record papers. Tonk district occupies 20th position among the existing 33 districts of the state; so far its area is concerned.

The total area of the District is 7194 sq kms.

1.2 Topography-It is surrounded by 5 districts i.e. in north Jaipur, in South Bundi & Bhilwara, in East Ajmer and in West Sawaimadhopur districts. Average rain fall is 62 mm. Agriculture and animal husbandry are the main occupation of the people.

1.2.1 PHYSIOGRAPHY

Tonk district has the shape of kite or rhombus with its eastern and western sides bending some what inward and the south-eastern portion protruding between Sawai Madhopur and Bundi districts. The district is flat at a general elevation of about 214.32 meters above sea level with rocky but scrubby hills. The soils are fertile but some what sandy and the subsoil water too is limited. The distinguishing feature of Tonk district is the Aravali system, which starts from Bhilwara district and running along the boundaries of Bhilwara and Bundi districts, enters Tonk district in the south near Rajkot and continues in a north eastern direction until it leaves the district near Banetha, A second chain lies in Tehsil Todaraisingh between the head quarter of the Tehsil Rajmahal where the Banas river flow through this hill. Another important hill is near Malpura and a small hillock near the border of Tehsil Sarwar of district Ajmer.

The rivers and streams of this district belong to the Banas system, which is more or less non perennial. During Monsoon and for a few months there after new streams appear and retain water in hollows at some places. Though is not of much use direct irrigation but help irrigation by raising the sub-soil water level of wells. Banas River enters Tonk district at Negdia in Deoli Tehsil and from this place it takes serpentine course, diving the district in roughly two third to its west and north and one third to its east and south. Its total length is 400 Kms. It is fordable during winter and summer but during the rains becomes a swift and angry torrent. Negdia , Bisalpur, Rajmahal, Deopura ,Mahendwas and Shopuri are the important villages on the bank of this river . Manshi the principal tributary of Banas travels along the borders of Jaipur and Tonk district between the Tehsils of Malpura and Phagi until it turns south to join the Banas at Galod village. The Sohadra is another important river as it feeds the Tordi sagar Tank, the biggest irrigation tank in Rajasthan. It joins Mashi near village Dundia and thereafter meets, Banas River near village Galod. Other small river are khari, Daian , Bandi and Galwa which join Banas and Mashi river at Negdia , Bisalpur , Chaturpura and Chouth-ka-Barwara respectively.

There is no natural lake in the in the district. However, several tanks formed by harnessing the feeders of the Mashi and the Banas are available. The biggest of such tanks is Tordi sagar in Tehsil Malpura irrigation an area of more than 5 thousands hectares, followed by bhairon sagar irrigating an area of about 1295 hectares. Others are very small tanks which are individually a very small area.

BISALPUR DAM 17 Km. from Deoli. The water storage capacity of this dam is 115.50 meter. Besides providing water to Jaipur, Ajmer, Nasirabad, Beawar, Kishangarh etc. This dam will provide irrigation facilities to Deoli, Tonk, & Uniara Tehsils. Due to dam subsoil water level also rise in Deoli, Tonk, Malpura & Toda Raisingh which will result in increasing the Agricultural produce.

1.2.2 CLIMATE AND RAINFALL

The climate of Tonk district is generally dry in short south-west monsoon season which starts from the month of June and continues till the middle of September to November is the post-monsoon season commences and between December and February is winter. In March, summer commences and extends till middle of June. A metrological observatory was established very late at Tonk and according to the observation , the maximum temperature of 220 C and minimum temperature of 80 C remains in winter, whereas in summer the maximum and minimum temperature 450 C and respectively. After monsoon, the temperature falls but the relief

heat is not marked because of the added discomfort from the increase in humidity. In summer months humidity remains relatively very low as compared to average humidity of 59.30 C.

The average annual rainfall in the whole of the district is 61.36 cm, but is generally decrease from the south-east to north–west. About 93% of annual is during June to September, of which July and August are the rainiest months. The rainfall data is available from Six station, which show the large variation in rainfall from year.

1.3 AVAILABILITY OF MINERALS -

Aravali system and the Deoli system are main geological formation in the region. Aravali system running from north east to south west and is made of schist's lying over reddish, jointed and altered quartzite's at Bonli, highly crystalline with large Pink garnets at Duni and alteration of Mica schist's and thin rusty quartzite's runs through Tonk city . Several detached hills between Tonk and Jaipur belong to Deoli system. Besides, Newai, Renwal and Chaksu there is a large hill of compact quartzite, resembling in colour and quality with the Alwar series. Garnites are the important intrusive rocks of igneous origin in the Aravali system of this area and the variety available is genesis granite and coarsely prophylic.

Tonk district endowed with a number of non metallic of which garnet, Silica sand, quartz and soap are found in abundance. Besides these minerals, felspar, mica and corundum are also found but in small quantities. In addition to these major minerals, the minor minerals viz. bricks clay masonry stone, patti-Katla etc. are also mined in Tonk district. The details as some of the minerals are given below-

(a) GARNET

Garnet is found near village Rajmahal Gaonari, Devkhera and Kushalpura of Tehsil Deoli. Occurrence of garnet at Rajmahal is of very good quantity garnets are used in cheaper variety of gemstones and abrasives. Garnet is used as semi precious stones and also as abrasives for garnet papers, garnet cloth, gems, beads etc. production of garnet (Gem & Abrasive) is given in table no. 2.7

(b) GRANITE

Survey permits were also issued to explore the area to know more deposit of the minerals and as a results deposit of granite have been found near village Deve and Rajpura of Tehsil Malpura.

(c) QUARTZ & FELSPAR

Felspar and **quartz** are generally used in the manufacture of glass, pottery, ceramics enamels porcelain and glassware. The Production of Quartz & Felspar has given in table no. 2.7

(d) SILICA SAND

Silica sand at present is missed near village Bartha, Noheta, Gangapura, Behad of Tehsil Newai of the indicated reserves of 36.8 million tones at Newai 3.68 million tones are expected to be fried variety. Estimated deposit are Siwad Silica sand during 2002-03 in Tonk district was 11551 tones, providing employment for an average number of 125 persons.

(e) CORUNDUM

It is found in village Jawai of Tehsil Tonk and the production of corundum during 193-94 was about 0.60 tones. The average of person employed was 6

(f) BUILDING STONE

Building stone is found in abundance at places, Saraj Modiya, Chipoli, Baheer and Karola in Tehsil Tonk. 384300 tones excavated during 2008-09 providing employment to 119 persons. It is generally used building purpose.

(g) PATTI-KATLA

Amli of Tehsil Uniyara and Toda Raising, Ladpura, Thedoli of Toda Raising Tehsil and Bislpur of Deoli Tehsil are these important places where patti is found. Besides these minerals, Kankar, Bajari, Bricks earth etc. are also found in Tonk district.

The following are the detail of different minerals and their places along with end used of these minerals.

S. No.	Name of the Minerals	Place of Availability	End Use
1	Slate Stone	Ghar, Datrunda, Ganwar, Rajpura	Tile & Block
2	Granite	Devel Nagar, Malpura Tehsil	Cutting & Polishing Industries
3.	Phylite shist	Ghad, Datrunda, Rajkot, Anwa	Tiles, cutting & Polishing Industries
4.	Soap Stone	Newai, Choti, Chanesn	Soap Stone Powder
5.	Felspar	Lamba Hari Singh, Indola, Uniara, Dedoli, Tehsil Malpura	Farmmlc Powder
6.	Quartz	Kalyanpura On Kabra Bahar Gangapura (Newai & Tonk)	Glass Powder Kantoll (Malpura)
7.	Mica	Sakawara Ganeshpur Dhola	Electricals
8.	Garnet	Rajmahal Ganwarl Deokhera (Deoli)	Febric Powder
9.	Silica Sand	Notha	Moluding Silica & Glass Industries
10.	Endlasinght	Sitapura	AL to 0.55% Black Amet die Alumlnlum
11.	Brick Clay	Sohela, Baroni Tonk	Bricks
12.	Masonry Stone		
13.	Bazri

1.4. FOREST FLORA AN FAUNA

About 4.61 % of the total area of the district is forest, mostly located near Tonk city, Sohela, Kakor, Benetha, Nagar, Toda Raisingh, Rajmahal and Newai. The main species are Dhonk, Khair, Chills, Khejra, Shisham, Siris, Tendu, Babul and Ber. In the former Tonk state, Antelope, Deer and Nilgai were common in the plains and Leopard, Sambar and Wild Hog were found in the hills, Tiger could be met occasionally within the south east areas of the district. At present the fauna is considerably reduced and only Deer, Hara, Grey partridges and small and grouse are generally found. Because of dwindling, wild life shooting is generally not given.

1.5 ADMINISTRATION SET-UP

- District Collector & District Magistrate is the head of District Administration. There is only one Additional District Magistrate sitting at District HQ.
- The District Tonk 7 subdivisions. There are 7 Subdivisional Officers working at Dub Divisions.
- There are 7 Tehsil Headquarters in Tonk District and each one has a Tehsildar as an administrative Officer who works in accordance with the Land Records System. Two Sub tehsils are headed by a Naib tehsildar.

- There are Six Panchayat samitis and each one is headed by a Block Develpoment Officer (BDO).
- There are One Nagar parishad and Five Nagar Palikas in Tonk District.
- The Tonk District at present have seven sub-division viz. Tonk, Malpura , Peeplu, Newai, Deoli, Toda, Raisingh and Uniara comprising seven Tehsils and six panchayat samities. The details of administrative set up in Tonk district is given in the Table 1.1

TABLE 1.1

3.4 Large Scale Industries / Public Sector undertakings

Large & Medium Scale Industries

Tonk has only 1 large scale industry as detail given below

S.N.	Name of Unit	Production	Investment in (Crore)	Employment	Condition
1	M/s National Engg. Industry Limited Gunsli Newai	Ball Bearing	109.12	203	Running

Export - The Ball Bearings worth approx. 75.25 Lakh Rs. manufactured at NEI, Newai are being exported from Tonk.

3.6 Growth Trend

Slate stone is available in ample quantity in the district. Based on Slate stone some other industries like quartz grinding PCC Poles, RCC Pipes are working.

Tomato catchup , woollen carpet, Readymade garments, animal beeds, masala, engineering work, tire retrading , washing shop industries are developing.

Proposed New Industrial Area

S.No.	Proposed industries	Area
1	Saroli Mod, Tehsil -Deoli	88.16 hectare
2	Vill-Gadoli , Khatoli Road Uniara	53.90 hectare
3	Industrial area Malpura Extension	44.17 bigha
4	Industrial Area, Chosala	574.14 bigha
5	Industrial Area,Gunsli	300.00 acre
6	Industrial Area IID Newai , Extension	200.00 acre

3.7 Vendorisation / Ancillarisation of the Industry

1. In the M/s. national Engineering Industry, Micro & Small Industries are supplying Bushes, races etc. and still there is scope for MSME sector to supply Bearing Components to M/s. NEI, Newai.

3.8. Medium Scale Enterprises

3.8.1 List of the units in Tonk

Tonk District is industrially backward but some industries are working in which Rs. 131 Crore & 62 Lacs are invested and 1690 persons are employed into these industries. Details of some industries are as below.

S.N.	Name of Unit	Production	Total Investment in (Crore)	Employment	Condition
1	M/s Sidharth Poly Sacks Pvt. Ltd. IID Center Newai	HDPE / PP Woven sack	15.55	169	Running
2	M/s Swatantra Bharat Mill IA Tonk	Coton Yarn	37.00	423	Running
3	M/s ISUZU Garment Deoli Road, Tonk	Readymade Garments	10.55	538	Running
4	M/s Kalp Taru Power Transmission Ltd. Khatoli, Uniyara	Production of electricity	37.93	160	Running
5	Dabur India Ltd. IID Center Newai	Production of fruit Juices	30.61	133	Running

3.8.2 Major Exportable Item from Medium Scale industries-

The Slate stone tiles and sand stone tiles are exported form Tonk district Deoli is the main producing center of these tiles. It is estimate of these amounts to Rs. 12.00 cores to various countries. It is expected that this will further increase in the years to come.

The item of export from Tonk district is cotton Derry. Though this is expect from Tonk but no directly purchase from Jaipur, Deoli & Bombay buy from Tonk and exported them to various counties. The woolen carpets manufactured in Tonk is also exported the agents, in the some process as cotton durries.

The readymade garment is also export from Tonk. It is estimate that export of these amounts to Rs. 46.50 crores to Dubai, Iraq etc.

3.9 Service Enterprises

3.9.1 Potentials areas for service industry

1	Principal Products Manufactured in the Cluster	Mustered & Groundnut oil
2	Name of the Assn.	Oil Mill Association, Newai
	Contact Person	President -Sh. Om Prakash Chawaria- 9214958415
3	No. of functional units in the clusters	22
4	Turnover of the Clusters	350 Cr.
5	Value of Exports from the Clusters	nil
6	Employment in Cluster	128
7	Average investment in plant & Machinery	20 lakh
8	Testing needs	Fat Viscosity & other basic testings are required to be developed in common testing labs.
9	Thrust Area	Packaging etc.
10	Access to Export Market	-

Present status of the cluster :- Cluster activities yet to be started.

4.2.3 Edible oil Mill cluster, I.A., Tonk

1	Principal Products Manufactured in the Cluster	Mustered & Groundnut oil
2	Name of the association	Tonk Jila Edible Oil Mill Association, I.A., Tonk
	Contact Person	Gen. Secy.- Sh. Lokesh Jain- 9214921184
3	No. of functional units in clusters	21
4	Turnover of the Clusters	450 Cr.
5	Value of Exports from Clusters	nil
6	Employment in Cluster	150
7	Average investment in plant & Machinery	20 lakh
8	Major Issues	Sick Unit rehabilitation, Delayed Payments etc.
9	Testing needs	Fat Viscosity & other basic testing are required to be developed in common testing labs.
9	Thrust Areas	Packaging etc.
10	Access to Export Market	-

Present status of the cluster :- Cluster activities yet to be started.

4.2.4 Slate Stone Cluster, Deoli

1	Principal Products Manufactured in the Cluster	Slate stone tiles
2	Key Trade Association address	Devli Udyog Sangh, Devali
	Contact Person	Sh. Shyam Kansal. mo.- 9829285599
3	No. of functional units in the clusters	20
4	Turnover of the Clusters	2 Cr.
5	Value of Exports from the Clusters	1.5 Cr.
6	Employment in Cluster	200
7	Average investment in plant & Machinery	10 lakh
8	Testing needs	-
9	Major Issues	Payment delay, Slugish Export market
10	Access to Export Market	75 % of total product being exported

4.2. 5. Name of the cluster: Murtikala Cluster, Todaraisingh

1	Principal Products Manufactured in the Cluster	Stone Murti, Okhli, Chakla etc.
2	Name of the Association	-
3	No. of functional units in the clusters	40
4	Turnover of the Clusters	1.5 Cr
5	Employment in Cluster	100
6	Average investment in plant & Machinery	Rs. 20000 to 40000
7	Major Issues	Lack of organization, old technology etc.
8	Access to Export Market	nil

Present status of clusters:- No cluster activities

5. General issues raised by industry association

1. Information about DC(MSME /NMCP schemes need to be disseminate among MSME unit of the district.
2. CLCSS- lack of awareness among unit as well as branch level bankers.
3. Bankers avoid to accept the cases under CGTMSE specially for the new entrepreneurs and insist for the collateral security.
4. Delayed Payment related issues.
6. Export decline due to the market slow down.
