Brief Industrial Profile of Jalpaiguri District **(WEST BENGAL)**

1. General Characteristics of the District:

The district of Jalpaiguri occupies a prime position in the domain of North Bengal. It stretches over an area of 6227 sq. kms (Census, 1991) and has its headquarters in Jalpaiguri. The economy is chiefly agrarian although the industrial belt is gradually attempting to expand its periphery.

The sprawling tea gardens of the Dooars area constitute the chief asset of this district. Other major agrarian products of the district like jute, paddy, potato, etc. also make a significant contribution to the district's revenue pool. Forest resources of the district constitute another major resource of the district.

1.1 Location & Geographical Area.

The district enjoys a strategically important location as it serves as a corridor of trade and communication with the various north-eastern States of India. It stretches between the gridlines 27°N to 26°16' N latitude and 89°53' E and 83°25' E longitude. It touches the boundaries of Bhutan and Darjeeling in the north, Assam (Goalpara) in the east, Coochbihar in the south and Bangladesh in the south-west.

The district topography wears a mixed look – consisting both of hilly areas and undulating plains coupled with vast flat plains. Three district physiographic units can be identified in the district (a) the northern hilly terrain which is a part of the sub-Himalayan Ranges, (b) the sub-montane central tract, locally called Bhabar and (c) the gently sloping alluvial plain in the south locally called Terai.

1.2 Topography

The soil in this region ranges from alluvial soil to sandy and clayey soil. The soil can be broadly classified under two heads – a) the terai soils covering almost the entire district and b) the brown forest soil covering the northern foot hills of the district. However, the soil is predominantly sandy and hence porous with low water holding capacity.

The alluvial soil is fertile enough for crops like paddy, jute and tea to be grown. This kind of soil is brought down by hilly rivers like Teesta, Torsa and Mahananda. The rivers often overflow their banks depositing layers of fertile soil on the banks on either side.

In the upper region to the north of the Duars, the soil is mainly hard, black and clayey. This soil is suitable for growing tea which is a major cash crop of this region. In the lower plain land the soil consists of a mixture of both clay and sand.

India is said to be a land of rivers and the district of Jalpaiguri bears enough proof of this statement. There is a network of rivers criss-crossing the entire region. The major ones are Teesta, Torsa, Mahananda, Jaldhaka, Kaljani, Raidak, Korotowa and Sonkos. These are joined by smaller streams like Galandi, Dudua, Tasati, Mujnai and their likes. The rivers are in full spate during the monsoon season and navigation along them becomes risky. Agricultural activity in the district is largely dependent on the various irrigation projects which have been built on these rivers.

1.3 Availability of Minerals.

1.4 FOREST

It is believed that the district of Jalpaiguri has derived its name from the 'Jalpai' trees (olive trees) which grow abundantly in the forests covering the northern hilly terrain. The district is blessed with rich reserves of forest resources. The presence of vast hilly tracts covered with dense forests with sparkling streams flowing through them has attracted tourists from all over the world.

The forests, covering 179000 hectares of land which is 27.8% of the total geographical areas, are home to a fascinating variety of flora and fauna. The vegetation is mostly deciduous semi-evergreen with sal as the dominant species. The timber produced in these forests is very valuable and is used for building furniture, doors, windows and other wooden fixtures. Social forestry is also becoming popular now-a-days with trees like Eucalyptus, Simul, Krishnachura, etc. being widely cultivated.

The forested hilly ranges have also given birth to several major Wild Life Reserves – namely Jaldapara, Buxa Tiger Reserve, Garumara, Chapramari and Hollong. They serve as popular tourist resorts. The rich bio-diversity in the sanctuaries of Jaldapara and Chapramari is a striking treat for the eyes. Trekking routes along the Sinchula Range provide magnificent scenic views of nature in its pristine form. Chotashinchula peak (5695 fee) is the highest point of the district. These ecologically fragile zones should be preserved and protected from environmental degradation.

Minor forest produce like bamboo, cane, honey, wax, etc. are also found in the forest areas. Bamboo and cane furniture is manufactured both in the rural and urban areas. Timber and fuel are the major forest produce.

1.5 Administrative set up.

The administrative set up of Jalpaiguri district consists of three Sub-Divisions viz. Sadar Mal and Alipurduar with district headquarters at Jalpaiguri. The three sub-Divisions have 17 police stations under their jurisdiction. There are 13 blocks or Panchayat Samities and 4 Municipalities in the district – 4 blocks and 2 Municipalities in Sadar Sub-Division, 3 blocks and 1 Municipality in Mal Sub-Division and 6 blocks & 1 Municipality in Alipurduar Sub-Division. Under the jurisdiction of these blocks, there are 742 inhabited villages with 756 Mouzas governed by 146 Gram Panchayats.

The table below shows the sub-Divisionwise distribution of blocks, villages and Gram Panchayats.

Name of the Sub-Division	Police Station	C. D. Block/M	No. of Gram Panchayats	No. of inhabited villages
Sadar Sub-Division.	6	4/2	58	236

Total = 3	17	13/4	146	742

Source: District Statistical Hand Book, 2008

The administrative structure of the district also rests on the framework provided by the existence of 4 Municipalities and 1 Municipal Corporation. Part of Siliguri Municipal Corporation belongs to Jalpaiguri district.

11	Haldia Precision Engineering Co.
12	Perfect Air Products.
13	Changia Food Processing Co.
14	Sunderban Fertilizer Ltd.
15	Siliguri Flour Mills Ltd.
16	Northern Flour Mills Ltd.
17	Falakata Industries Ltd.
18	Tista Fruit & Vegetable Processing.
19	Phyto Chemical Complex

3.8.2 Major Exportable Item

Data Not available

3.9 Service Enterprises

3.9.1 Potentials areas for service industry

Cold Storage, Automobile Body Building & Repairing services relating to transport.

3.10 Potential for new MSMEs

Setting up new industrial ventures or optimally exploiting the existing resources depends to a large extent on the availability of suitable infrastructure, a strong capital base, abundance of resources like land, labour and entrepreneurship, assured markets for the products and a multiple other factors. The district of Jalpaiguri cannot boast of being in a very favourable position as far as the aforesaid factors are concerned. Yet its strong agricultural base prepares the ground for setting up agrarian industries.

Jalpaiguri is undoubtedly an agriculture based economy and with this background in mind various prospective agro based industries have been suggested below. Significant deposits of dolomite and other minerals like limestone, coal, stone etc. makes the district prospective for industrial development. Jalpaiguri also has a rich reserve of forest resources. The sericulture units in Jalpaiguri sadar Block and in

Alipurduar Block also offer scope for expansion. The tea industry in the district is a traditional investment which with adequate modernisation can pave the way to setting up of various ancillary units like those engaged in pruning knives or in solvent extraction from tea waste etc. Similarly, special mention should be made about mushroom canning industry. The district is agro climatically suited for mushroom production and especially "button mushroom" which has tremendous export potential. Thus, considering the resources, the existing infrastructure and the general framework of the district, a few candidate industries, both resource based and demand based have been suggested in this Chapter after detailed discussion with various agencies like DIC, Bank, various State Govt. Departments and other local bodies.

A) Resource-based Industries

- | | |
|---|---|
| 1) Rice mill | 13) Meat processing and for human consumption |
| 2) Solvent extraction from rice bran | 14) Tanning of leather |
| 3) Rice processing | 15) Leather processing |
| 4) Solvent extraction from tea waste | 16) Animal fat utilisation for production of pork choke and oil |
| 5) Tomato sauce, chilli sauce | 17) Pre-cast building blocks from rich reserves of dolomite, limestone and sand |
| 6) Vegetable dehydration | 18) Sericulture units – silk reeling |
| 7) Fruit preservation and processing | 19) Honey production |
| 8) Mushroom canning | 20) Spice grinding |
| 9) Jam, jelly from pineapple, orange, lemon | 21) Processing of pulses |
| 10) Pickles and chutneys from mango | 22) Dairy farm |
| 11) Ginger oil and ginger powder | 23) Stone crushing |
| 12) Oleo resin | |

B) Demand-based Industries

- | | |
|---|------------------------------------|
| 1) Manufacturing of agricultural tools and implements | 15) Moulded plastic articles |
| 2) Agro service centres | 16) Automobile repairing |
| 3) Cold storage | 17) Automobile smoke testing units |
| 4) Bio-fertilizer units | 18) Paints and varnishes |
| 5) Repairing and servicing of diesel pumpsets | 19) Clay bricks |
| 6) Repairing and servicing of electronic items | 20) Nuts and bolts |
| 7) Bread and biscuit | 21) Storage battery assembling |
| 8) Handicraft products | 22) Cry cell battery |
| 9) Wooden furniture and fixtures | 23) Soft drinks |
| 10) Cane furniture | 24) Pesticide formulations |
| 11) Handloom products | 25) Terracotta pottery |
| 12) Ceramic novelty items | 26) Washing soap and powder |
| 13) Readymade garments | 27) Washing soap and powder |
| 14) Textile, silk printing | 28) Mosaic tiles |
| | 29) Paper cups and plates |

- 30) Repairing and servicing of
bi-cycles and cycle
rickshaw

4. Existing Clusters of Micro & Small Enterprise

4.1 DETAIL OF MAJOR CLUSTERS

Plastic household products, Lead Acid Battery are the major cluster in the Jalpaiguri district

4.1.1 Manufacturing Sector

Plastic household products, Lead Acid Battery

4.1.2 Service Sector

Nil

4.2. Details for Identified cluster

1) Name of the cluster: **Plastic Processing**

<u>Details for Identified cluster in West Bengal implemented by Directorate of Micro & Small Scale Enterprises</u>		
Name of the district:- JALPAIGURI		
Sl.	Subject.	Name of the Clusters
		Plastic Processing
1	Principal Products Manufactured in the Cluster	Plastic household products
2	Name of the SPV	
3	No. of functional units in the clusters	90
4	Turnover of the Clusters	Rs. 35 Cr.
5	Value of Exports from the Clusters	
6	Employment in Cluster	860
7	Average investment in plant & Machinery	
8	Major Issues / requirement	Technology up-gradation; availability of moulds; Power supply
9	Presence of capable institutions	
10	Thrust Areas	Design & mould making; R&D facility; e-marketing
11	Problems & constraints	Pollution; low power supply; Finance
12	Testing needs	Quality product
13	Access to export market	

14	Name of the association	
15	Key trade Associations address	

5. General issues raised by industry association during the course of meeting

The district is rich in agricultural and forest resources, the agro climatic suitability has enabled agriculture to prosper. However, the district is flood prone and proper irrigation facilities are needed to support the agricultural cropping pattern. Emphasis on development of "rain-fed areas" is one of the major projects of the district. Tea is a major commercial/cash crop and the tea industry needs special attention for proper expansion. The power requirement is met by WBSEB but the demand for electricity is increasing rapidly to promote industrialization in the district.

6. STEPS TO SET UP MSMEs

Following are the brief description of different agencies for rendering assistance to the entrepreneurs.

S. No	Type of assistance	Name and address of agencies
1.	Provisional Registration Certificate (EM-1) & Permanent Registration Certificate (EM-II)	District Industries Centre, Dte. of M& SSE, Govt. of West Bengal, Club Road, P.O. & Dist : Jalpaiguri,
2.	Identification of Project Profiles, Techno-economic and managerial consultancy services, market survey and economic survey reports.	(1) MSME – Development Institute, Ministry of MSME, Govt. of India, 111 & 112, B. T. Road, Kolkata-700108. (2) Directorate of Industries New Secretariat Bldgs, 9th fl., 1, Kiran Sankar Roy Road, Kolkata-1 (3) W.B. Small Industries Dev. Corpn., 6A, Raja Subodh Mulick Square (3r floor) Kolkata-13 & 31, Block Burn Lane, Silpa Bhawan, Kolkata-12
3.	Land and Industrial shed	(1) W.B. Small Industries Dev. Corpn., 6A, Raja Subodh Mullick Square, (3r floor) Kolkata-13 & 31, Black Burn Lane, Silpa Bhawan, Kolkata-12 (2) West Bengal Industries Infrastructure Development Corpn. Ltd., P-34, CIT Road, Kolkata-14
4	Financial Assistance	(1) West Bengal Industrial Development Corporation Limited, 5, Council House St., Kolkata-1 (2) Small Industries Dev, Bank of India(SIDBI) Eastern Regional Office, 11, Dr. U. N. Brahmachari Road, Kolkata-17 (3) W. B. Financial Corpn., 2A, Netaji Subhas Road, Kolkata-16 (4) United Bank of India, H.O. 16, Old Court House St, Kolkata-1 (5) All other Banks
5.	For raw materials under Govt. Supply	National Small Industries Corpn. Ltd., 20 B, Abdul Hamid St., 7th floor, Kolkata-69
6.	Plant and machinery under	National Small Industries Corpn. Ltd.,

	hire / purchase basis.	20 B, Abdul Hamid St., 7th floor, Kolkata-69
7.	Power/ Electricity	(1) W. B. State Electricity Distribution Co. Ltd. Bidyut Bhawan, Sector-II, Salt Lake City, Kolkata-91 (2) Calcutta Electric Supply Corpn.
