## 2.1 Existing Status of Industrial Areas in the District DANG :

This is the only district where the Gujarat Industrial Development Corporation has yet to establish its industrial estates. As per information received from GIDC, Vapi, no land has been acquired by GIDC in Dang district. So, 'NIL' entry is confirmed.

## 3. INDUSTRIAL SCENERIO OF DANG DISTRICT

### 3.1 Industry at a Glance:

The Dang district had hardly made any progress on industrial front aside. As per the details received from District industries Centre, Valsad, there is no any MSME unit in Dang District upto 2010-11. So, Nil entry in this block is confirmed.

### 3.8 Medium Scale Enterprises

- 3.8.1** List of the units in & Near By Area: Since it is hilly and backward area; moreover majority scheduled caste and down trodden class people, no entrepreneur comes forward to establish any SME in the district. Hence, there is no units functioning at present. And. no data is available with the DIC.

### **# Soil :**

The terrain is mostly Deccan trap and the underlying stratum is rockery. The range from red to black. Red soil is found in the Upper parts of the valley and Black soil is found in the plains of western Dang. In some parts, medium loam to sandy loam soil is also found. So, the entire district is suitable for cultivation of rain fed crops like Ragi and other millets. Soil fertility is poor and is subject to heavy erosion on slopes and terraces.

### **# Rivers :**

Although four rivers viz. Ambica, Purna, Khapri and Gira flow through the district and it receives average rainfall of 2500 mm. Ambica and Purna Rivers are originating from Dang district and flow through Valsad District to meet to Arabian sea in the west. Besides these two, there is one more river Kuda. All these rivers flow through hill and dales and turn dry during summer. However, water is available in pools in some of these rivers during Summer.

### **# Water supply:**

Water supply for industrial purposes in the district can be obtained from two main sources, viz. Gujarat water supply and Sewerage Board and irrigation canals.

Almost, all water supply systems in the district are based on groundwater reserves.

- \* Dang district is gradually emerging into an agro processing and tourism hub.
- \* Saputara is an important tourist destination in the district. It is also known as " Abode of serpents", is a hill resort on a plateau of the Sahyadri range of mountains that offers rich wildlife for tourists.
- \* Saputara Museum contains interesting information about the topography and anthropology of Dangs.
- \* Gira Falls (3 km from Waghai) is a 30 meter natural drop into Ambika River and offers solace and relaxation.
- \* Purna Wildlife sanctuary in the district has the thickest forest cover in the State and is filled with canopies of teak and stands of bamboo.
- \* Vansda National Park in Dangs, harbors large mammals including the leopards, hyena, Jungle cat, macaques and barking deer. It is also home to the endangered Great Indian Squirrel.

### 1.3 Availability of Minerals :

The district is not endowed with mineral resources. However, Basalt is available in substantial quantities and it is quite possible to utilize commercially. Agate is found near Saputara. This is used for ornamental purposes and there is scope for its exploitation. There is no any major minerals found in the district.

### 1.4 FOREST :

Dang district has the richest forest in the whole of Gujarat. The total geographical area of the district is 1,72,357 hectare of which 1,72,357 hectare is covered by forest areas. The economy of the district is largely forest based. The annual revenue from the forest account for over half of the total revenue from the forest of Gujarat.

The total forest area is divided into two parts viz- reserved forest and Protected forest. The reserved forests are mostly in the reach of stiff hills with poor soils while the protected forests occupy the easier hillocks, plateau and undulating low lying area generally with richer and deeper soils and have

been subjected in patches for cultivation to a very large extent the areas in the protected forest were under cultivation and therefore, the Government decided to give occupancy rights to the Dangi cultivators of these area. The sloppy area, which is under cultivation the forest growth has obviously disappeared to a considerable extent.

The forest of Dang produce large dimensional timber and have rich growth of teak, sadad, bamboos, other timber species and important medicinal plants. In the reserved forests, the teak is very much prominent and is found all over the area.

The teak of Dang generally known as "Bulsari Teak" is second best in the **world** only after Burma Teak. Other superior species namely- Shisham, Tivas, Bio, Khair, Hed, Kalam manti, Nane bandaro, Kilai and siring Marvel have also good timber value.

Timber, Charcoal and firewood available from the forest of Dang are sold to merchants at Waghai and Ahwa by auction.

**1.5 ADMINISTRATIVE SET UP :** The district was included in Gujarat and was administered as a separate administrative units by a separate district collector. Under the British rule, the area of Dang was considered as a foreign territory and its administration was run under the Foreign Jurisdiction Act. However, after bifurcation of Surat into Surat and Vasad district in June 1964, the district was placed under the Jurisdiction of the Collector of Valsad district.
